## Safety Measures

- To avoid possible eye damage, never point the remote's laser at people, especially their faces, or look directly into the remote's laser beam.
- Avoid pointing the remote's laser beam at a mirror or other highly-reflective surface.
- Keep the remote away from young children.
- Never view the remote's laser beam using telescopic devices, such as a microscope or binoculars.
- Any attempt to disassemble, adjust or repair the remote may result in exposure to laser light or other safety hazards.

## Troubleshooting

### **What do I do if the response time of the remote is slow or it intermittently stops working?**

- Make sure that the remote is within 50 feet (15 m) of the mini USB receiver and computer.
- Increase the distance between the remote's receiver and the base units of other wireless devices.
- Turn off any wireless devices and their base units that are near the remote's receiver.
- Replace the battery.

## FCC Statement Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product.

This device complies with RSS-210 of the IC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
