User Guide

Introduction

Thank you for your purchase of the Targus Wireless Compact Laser Mouse. The accompanying micro USB receiver is small enough to leave plugged into your computer or simply store it inside the mouse when travelling. This is a plug and play device so no additional software is required.

Contents

- Targus Wireless Compact Laser Mouse
- 2x AAA Energizer® MAX® Batteries
- Micro USB Receiver
- User Guide

System Requirements

Hardware

- USB port

Operating System

- Microsoft Windows® 2000
- Microsoft Windows® XP
- Microsoft Windows Vista®
- Microsoft Windows® 7
- MacOS® X 10.4 or later

Installing the Batteries

1. Remove the battery cover from the top of the mouse by using the notch on the back. Carefully lift the cover up as shown in the diagram.

2. Remove the battery safety clip by squeezing the center of the clip and sliding it back, towards the rear of the mouse. Lift up and rotate the clip out of the way.

NOTE: THE BATTERY SAFETY CLIP WILL NEED TO BE IN THE SECURE, LOCKED POSITION BEFORE THE BATTERY COVER CAN BE PUT BACK IN PLACE.

3. Remove the micro USB receiver stored inside the center compartment .

4. Insert the two AAA batteries, making sure that the positive (+) and negative (-) ends of each battery match the polarity indicators inside the battery compartment.

5. Replace the battery safety clip by sliding it forward until it clicks into place and then replace the battery cover.

NOTE: THE FRONT OF THE LID SHOULD BE INSERTED FIRST BEFORE SNAPPING THE BACK OF THE LID DOWN.

Establishing the Connection

(A) Plug the USB receiver into an available USB port on your computer.

(B) Turn on the mouse by sliding the power switch to the ON position, located on the bottom of the mouse.

This mouse is a plug and play device. It will automatically operate when the USB receiver is connected to the computer.

Power On:

Slide the power switch to the ON position.

Power Off:

Slide the power switch to the OFF position.

Power Saving mode:

After an extended period of time, if the mouse is not used, it will automatically enter power saving mode to conserve power and increase battery life. Click on any mouse button or simply move the mouse to resume the normal operation. The mouse may take a few seconds to reconnect with your computer.

Battery Life Indicator

- When the mouse is turned on, the LED illuminates for 3 seconds and then fades out
- The low power light will start flashing every 3 seconds when less than 5% of the battery power remains. Replace the batteries as soon as possible"

Battery Life Indicator

Power Management

- To extend the life of your battery, turn off the mouse while travelling or when you're not using it.

Product Registration

Targus recommends that you register your Targus accessory shortly after purchasing it. Go to:

<http://www.targus.com/registration.asp>

You will need to provide your full name, email address, country of residence and product information.

Warranty

Targus warrants this product to be free from defects in materials and workmanship for one year. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to devices; nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product.

Compliance with 21 CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007

This device complies with RSS 210 of Industry Canada.

"Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

"This Class B digital apparatus complies with Canadian ICES-003."

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Declaration of Conformity

Hereby, Targus, declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

CAUTION

LASER RADIATION. DO NOT STARE INTO THE BEAM OR VIEW DIRECTLY WITH OPTICAL INSTRUMENTS. CLASS I LASER PRODUCT.
NEVER POINT A LASER BEAM INTO A PERSON'S EYES OR VIEW A LASER BEAM DIRECTLY, AS PROLONGED EXPOSURE CAN BE HAZARDOUS TO THE EYES.
MOMENTARY EXPOSURE FROM A LASER POINTER, SUCH AS AN INADVERTENT SWEEP OF THE LIGHT ACROSS A PERSON'S EYES, MAY CAUSE TEMPORARY FLASH BLINDNESS SIMILAR TO THE EFFECT OF A CAMERA FLASH BULB. ALTHOUGH THIS CONDITION IS TEMPORARY, IT CAN BECOME MORE DANGEROUS IF THE EXPOSED PERSON IS ENGAGED IN A VISION-CRITICAL ACTIVITY SUCH AS DRIVING.
