

Targus® Model:AKB38

Targus Bluetooth Keyboard Work In Case

Introduction

Thank you for your purchase of the Bluetooth Keyboard Work In Case. The keyboard uses Bluetooth version 3.0 which provides a seamless connection up to 33 feet away. The Bluetooth keyboard is compatible with Dell Latitude 10 Tablets and can be used in either Bluetooth or Wired modes.

Contents

- Keyboard and Case
- Micro USB Charging Cable (also the Connection Cable for Wired Mode)
- User Guide

System Requirement

Hardware

- Dell Latitude 10 Tablet

Software

- Windows® 8

Establishing the Connection

The keyboard can be connected to your tablet using the enclosed USB cable or wirelessly via your tablet's Bluetooth connection.

1. Ensure the Tablet Bluetooth is turned "on":

Slide the connection switch on the front of the keyboard to the right and then press the Fn + Pairing key (as pictured below) for 3 seconds

- Pairing indicators (Blue and Red LEDs) will be blinking until pairing is successful. (Bluetooth setting has to be turned on first on your tablet.)

2. To connect your keyboard using the enclosed USB cable:

Slide the connection switch on the front of the keyboard to the left. Plug the micro USB connector into the side of the keyboard and plug the USB connector into your tablet.

3. To turn the keyboard off, slide the connection switch to the middle position.

Power Saving Mode

The keyboard will go into sleep mode if it is idle for 10 minutes. To optimize the keyboard battery life, we recommend that you turn it off when not in use.

Charging the Keyboard

1. Connect the wireless keyboard to a laptop computer USB port via the supplied USB cable. Power indicator (Red LED) is on when charging the Lithium battery. You can also use any standard Micro USB AC Charger.
2. Charging is complete when the power indicator (Red LED) turns off.

Bluetooth Connection Indicator/ USB Connection Indicator/ Battery Life Indicator

1. The Bluetooth Connection indicator will keep turned on for 3 seconds when the keyboard is in Bluetooth Connection mode.
2. The USB Connection indicator will blink 4 times (0.1 sec) when the keyboard is switched to USB Connection mode.
3. Battery life indicator (Red LED) will blink every 4 seconds when the power level drops below 15%.

Product Registration

Targus recommends that you register your Targus accessory shortly after purchasing it. Go to:

<http://www.targus.com/registration.asp>

You will need to provide your full name, email address, country of residence and product information.

ONE YEAR WARRANTY

1. Targus warrants to the original purchaser that its products are free from defects in materials and workmanship for one year. This warranty is limited to defects, materials and workmanship. 2. The benefits to the consumer given by the warranty are in addition to other rights and remedies of the consumer under law in relation to the goods to which the warranty relates. 3. The warranty is given by (i) Targus Australia, (ii) Targus Australia's business address is: 117-119 Bowden Street, Meadowbank, NSW 2114 Australia, (iii) Targus Australia's telephone number is 1800 641 645, Email: infoaust@targus.com (iv) To make a warranty claim for goods purchased in New Zealand, the telephone number is: 0800 633 222, or the goods may be returned to the supplier in New Zealand. 4. What the purchaser must do to entitle the purchaser to claim warranty:- (i) The purchaser must call the telephone number for Australia or New Zealand set out above, (ii) The purchaser must provide the purchaser's name, daytime contact number, business hours delivery address, the Targus model number on the product, date and place of purchase with receipt for purchase if required, and describe the fault condition. 5. What Targus must do:- (i) Targus will provide the purchaser with store return information or a return authorisation so that the purchaser may return the product for warranty inspection, (ii) If after inspection Targus finds the product is defective in materials or workmanship, Targus shall replace (or repair) the defective product at the discretion of Targus and ship the product from Targus warehouse at its expense within three business days (Monday to Friday excluding public holidays) of receiving the returned goods. If the product is no longer available Targus reserves the right to replace with the nearest corresponding product of no lesser quality, (iii) Targus will bear the cost of return delivery to the purchaser regardless of the inspection test result. The purchaser must bear the cost of the delivery to Targus. There is no charge for inspection. 6. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonable foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. 7. Please note: (i) Features and specifications of all Targus products are subject to change without notification, (ii) In some instances: Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired. Refurbished parts may be used to repair the goods, (iii) If goods accepted for repair retain user-generated data: During the process of repair some or all of your stored data may be lost. Please ensure that you have saved this data elsewhere prior to repair.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product.

Declaration of Conformity

Hereby, Targus, declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Battery Warning

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

CAUTION: AVOID PROLONGED USE OF THE KEYBOARD WITHOUT BREAKS.

Take regular breaks and keep a good posture. Consult your physician promptly if you notice any loss of motion or pain in your wrist when using the keyboard.

IC Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
