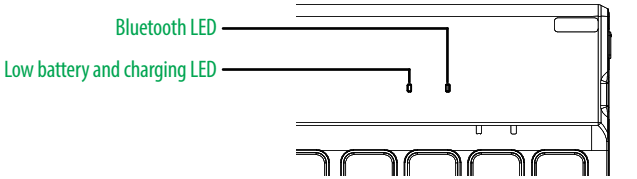
Bluetooth LED / Battery LED



LED	What is it doing?	What it means
Bluetooth LED (blue)	Blinking slowly	Is in pairing mode.
Bluetooth LED (blue)	Blinking steadily for two seconds	Has paired with a device for the first time.
Bluetooth LED (blue)	Blinking rapidly	Has re-paired with a device.
Battery LED (amber)	Blinking every second	Battery level is below 15%.
Battery LED (amber)	Continuously lit	Battery is charging. LED turns off when charging is complete.

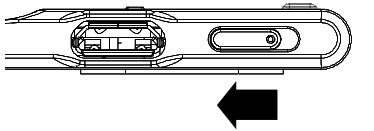
Charging the keyboard battery

- Connect your keyboard to a USB port on a computer using the provided Micro USB charging cable. The Battery LED lights amber while the battery is charging. When charging is complete, the LED turns off.

  Note: The first time you charge your keyboard it will take approximately four hours.

Connecting your keyboard to a tablet for the first time

1. On your tablet, make sure Bluetooth is turned on and in pairing mode.
2. Slide the power switch (on the right side of your keyboard) to the left to turn on your keyboard.



3. When the tablet finds your keyboard, follow the on-screen instructions to finish pairing your keyboard with the tablet.

   Note: If your tablet finds two keyboards available, select the one you want from the list.

Reconnecting to a paired tablet

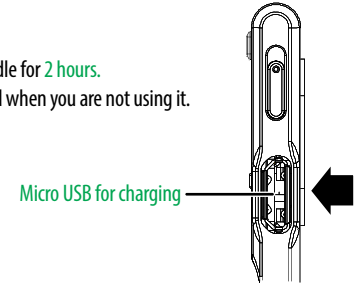
- Turn on your keyboard. It automatically pairs to the last connected tablet, if that tablet is within
  33 feet (10 meters) of your keyboard.

Pairing with a different tablet

1. On your tablet, make sure Bluetooth is turned on and in pairing mode.
2. Turn on your keyboard, then press and hold the **Pair** button until the Bluetooth LED lights blue and blinks slowly.
3. When the tablet finds your keyboard, follow the on-screen instruction to finish pairing your keyboard with the tablet.

Maximizing battery life

Your keyboard goes into sleep mode after it is idle for 2 hours.
To maximize battery life, turn off your keyboard when you are not using it.



Legal notices

FCC caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
This device may not cause harmful interference, and
This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

One-year limited warranty
