

# SIP DECT Cordless Series

*Cordless VoIP  
DECT Phone*

## DECT Cordless Technology for VoIP

Teledex iPhone SIP NDC series phones marry DECT technology with IP telephony to provide a cordless phone for your VoIP infrastructure. Utilizing the latest in DECT technology, Teledex iPhone SIP cordless phones won't interfere with your 2.4 GHz WiFi networks. Offering superior clarity, range, security and battery life, SIP NDC series phones are ready for your IP-PBX, and provide the guest satisfaction you need to stay competitive.

Available in single- and two-line configurations, with either five or ten programmable guest service keys to suit your requirements.
