# Operation

## Using a Bluetooth Device

1 Connect the unit as described previously. Press the **⏻ (ON/STANDBY)** button to turn the unit on. The function indicator will light up.

2 Select **BLUETOOTH** icon using the touch screen or **◀/▶/▲/▼** navigation and **▶|| (PLAY/PAUSE/ENTER)** buttons to enter the bluetooth mode. The unit automatically searches for and pairs a previously paired Bluetooth device (if previously paired). If no previously paired devices are present and/or you want to connect a new device, press and hold the **⌘** button; the indicator will flash alternatively blue and red for 60 seconds.

**Note:** You can also press and hold the **⌘** button to disconnect any paired devices in order to pair another device.

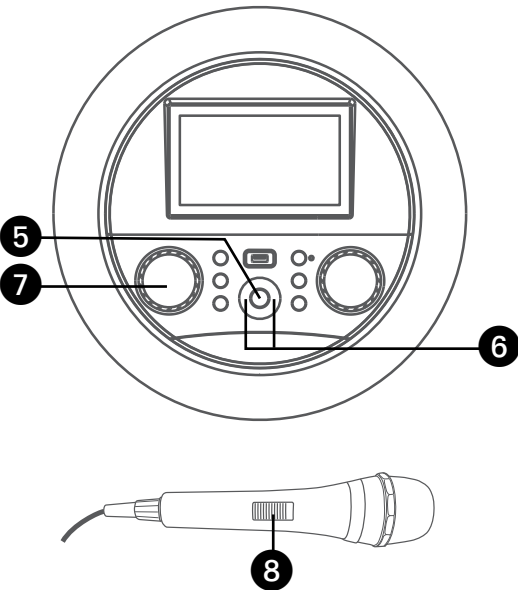

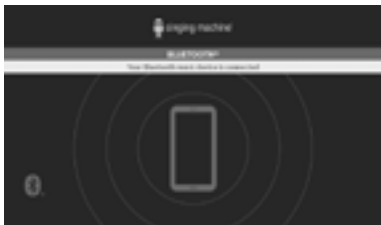

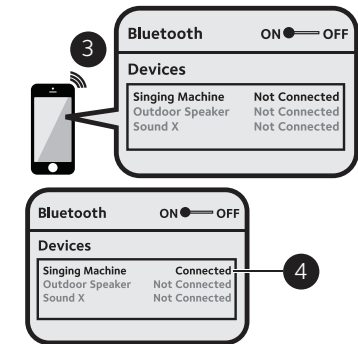

3 Turn on your device's Bluetooth option in settings to search for a discoverable device with a Bluetooth signal. Select "**Singing Machine**" from the device results on the Bluetooth menu.

**Note:** Also refer to the user manual of your Bluetooth device for detailed instructions.

# Operation

## Using a Bluetooth Device (Continued)

4 The screen will show that your Bluetooth device is connected successfully followed by a paired sound.

### Notes:

- If your Bluetooth prompts you for a passcode during the pairing process, please enter “0000” to connect.
- On some Bluetooth devices, once pairing is complete, select your Bluetooth device as “Use as Audio Device” or similar.
- If connection is lost after successful pairing, check to make sure the distance between speaker and Bluetooth enabled device does not exceed 30 feet/10 meters.

5 To control your Bluetooth device from this unit, press the **▶|| (PLAY/PAUSE/ENTER)** button to start playback (music app must be open). Press the **▶|| (PLAY/PAUSE/ENTER)** button during playback to pause the song.

6 **SKIP:** Advance or go back one track by pressing the **◀** or **▶** (Navigation) button.

7 Adjust the **MUSIC VOLUME** control as desired.

8 Connect microphone(s) and slide the **ON/OFF** switch on the microphone to the ON position.
