### **Integrator Installation Instructions**

## Description:

The Qmotion Model: QMHCS-908 is an RF module intended to be integrated with Qmotion Wireless motorized drapes and shades.

# Labeling Requirements:

The module integrator must include the following notifications in the finished products Users Guide/Installation Instructions.

This device complies with Part 15 of the FCC Rules and Industry Canada license exempt standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference received that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician to help.

#### **WARNING:**

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

### Marking Requirements:

The module integrator must include on the product label "CONTAINS FCC ID: 2AHG4-QMHCS-908" when the module FCC ID is no longer visible to the end users.
