To whom it may concern,

We, the undersigned, hereby attest the following:

- The Modlet User Manual attached with this application will be modified to refer to a more accurate image of the Modlet IQ ESP product prior to marketing the ThinkEco Modlet IQ ESP.
- The Modlet IQ ESP is a version of the ThinkEco Modlet embedded inside an ESP power filter product, but the functionality of the Modlet IQ ESP is the same as for the Modlet.
- Therefore, the content of the attached User Manual is valid except for the product's image and location of button and LEDs.

Sincerely,

Ben Burns  
Senior Product Engineer
