## SETTING THE RINGER SOUND

1. Make sure the phone is **OFF**.

2. Press and release the PROGRAM button on the base until *RINGER SETTING* shows on the display.

3. Press 1 or 2 for the different ringer sounds.

4. Press FORM/HOLD to confirm.

   NOTE: You can exit the Program mode at any time by pressing the PGM button.

SETTING THE TIME

1. Make sure the phone is **OFF**.

2. Press and release the PROGRAM button on the base until *12:00 AM* shows on the display.

3. Enter the time using the number keys (0-9) and the arrow buttons.

4. Press FORM/HOLD to confirm.

TELEPHONE OPERATION

RECEIVING A CALL

1. Check the display to see who is calling.

2. Press the TALK button.

MAKING A CALL

After initial set up, put handset in the base for 12 hours to charge the battery.

The cordless phone automatically selects the last line you used. The only two things you need to know to make a call are:

1. Press LINE 1 or LINE 2 to select a line before you dial.

2. Press LINE 1 or LINE 2 when you are finished (whichever line you are talking on).

Otherwise, it works just like any other phone.

> **NOTE:** You can press TALK instead of pressing LINE 1 or LINE 2. The phone defaults to the last line used.

button
LINE INDICATOR LIGHTS

Above each line button is a red indicator light which informs you the status of each line.

Light	Status
Solid	Line is in use
Blinking	Line on hold

AUTO STANDBY

While the handset is on, place it in the base and it will automatically hang up.

DUAL RINGER TONES

Your cordless telephone has separate and distinct ringer sounds for LINE 1 and LINE 2. This will allow you to determine the line of an incoming call, even in another room. If you are talking on one line and someone calls on the other line, the phone alerts you by sending a signal to the handset's earpiece.

Using the Speakerphone

For best speakerphone performance, avoid the following:

- Areas with high background noise. (The microphone might pick up these sounds and prevent the speakerphone from going into the receiving mode when you finish talking.)

- Surfaces affected by vibration.

- Recessed areas such as in a corner, under a cupboard, or next to a cabinet, which can generate an echo effect.

Note the following guidelines when you use the speakerphone:

- The speakerphone works similar to a two-way radio in that you can only listen or talk one at a time.

- Stay reasonably close to the phone so that you can be clearly heard by the person to whom you are speaking.

- The speakerphone indicator light is on when the speakerphone is in use.

ANSWERING AND PLACING CALLS

RECEIVING A CALL

To answer a call when the handset is out of the base, you must press the LINE 1 or LINE 2 button.

SWITCHING BETWEEN SPEAKER AND HANDSET

You can switch between speaker-phone and handset after dialing a number, or anytime during a conversation.

- **Speaker to Handset** — Pick up the handset.

- **Handset to Speaker** — Press SPEAKER, then hang up the handset.

20
INTERCOM

The intercom feature of your cordless phone allows you to have a two-way conversation between the handset and the base unit without tying up the telephone line. Since the telephone line is not being used, you can still receive incoming calls.

## USING INTERCOM

FROM THE HANDSET

1. Make sure the phone is **OFF**.

2. Press the INT button. A paging tone sounds at the base. (To cancel intercom, press INT again.)

3. Wait for the person near the base to press the PAGE INTERCOM button.

4. When finished, press INT on the handset (or PAGE INTERCOM on the base) to deactivate the intercom.

WHEN YOU HAVE A CALL

You may want to use the intercom feature while you are on a call.

1. Press the FORM/HOLD button (or HOLD on the base) to put the call on hold. *HOLD* shows on the display.

2. Follow the steps 2-4 in either the handset or base "Using Intercom" section to complete the intercom.

3. When finished, press FORM/ HOLD (or HOLD on the base) to return to your call.

    NOTE: While a call is on hold on the handset, you can transfer the call to the base by pressing the SPEAKER button. You can also transfer a call on hold at the base to the handset by pressing the TALK button.

TEMPORARY TONE

This feature enables Pulse (rotary) service phone users to access touch-tone services offered by banks, credit card companies, etc., by pressing the TONE button to temporarily make the phone touch-tone compatible. To get information about your bank account, for example, you would:
1. Call the bank's information line.

2. Press the TONE button (*) after your call is answered.

3. Follow the voice instructions to complete your transaction.

4. Hang up when finished. The phone returns to Pulse (rotary) service.

TONE
button
HOLD

You can use the FORM/HOLD
button to interrupt a phone
conversation without hanging up.

1. Press FORM/HOLD (or HOLD on
   the base) to place the active line
   on hold.

2. Press the LINE button for that
   call to resume the conversation.

CONFERENCE

You can use the conference call
feature when you have callers on
both lines and want to have a three-
way conversation.

1. Press FORM/HOLD (or HOLD on
   the base) to place the party on
   hold.

2. Press the other LINE button.

3. Dial the number of the second
   party.

4. Press CON (or CONF on the
   base).

5. Press LINE 1 or LINE 2 when
   finished to talk privately and
   disconnect the other line.

CALLER ID FEATURES

This unit receives and displays information transmitted by your local phone company. This information can include the phone number, date, and time; or the name, phone number, date, and time. The unit can store up to 40 calls for later review.

CALLER ID WITH CALL WAITING

Provided you subscribe to Caller ID with Call Waiting service from your phone company, you are able to see who is calling when you hear the call waiting beep. The caller identification information appears in the display after you hear the tone.

- Press the FLASH button to put the current person on hold so that you can answer the incoming call.
FLASH
button
VERY IMPORTANT: The Caller ID feature of this product requires a subscription to Caller ID service from your telephone company.

RECEIVING AND STORING CALLS

When you receive a call, the information is transmitted by the phone company to your Caller ID Telephone between the first and second ring.

When the memory is full, a new call automatically replaces the oldest call in memory. *NEW* appears in the display for calls received that have not been reviewed.

NOTE: Check with your local phone company regarding name service availability.
