

# Synchronization Settings (device and software connection)

# 4

Download TimeLink Note software(Note app.) in smart device, and enter into the left Menu > Settings > Sync WIFI configuration. Note: This is the initial setup operation, set it only one time (need to be reset when the router changed). After setup completed, connect your Smart device to the same WIFI, the synchronization between the device and the smart device can be realized.

## Connect Note

- 1、 Receive the signal sent by Timelink Note (No password)
- 2、 The signal sent by TimeLink Note is named after Mac's address that labeled on the back side of Note.

\* Please make sure the power is on before use.

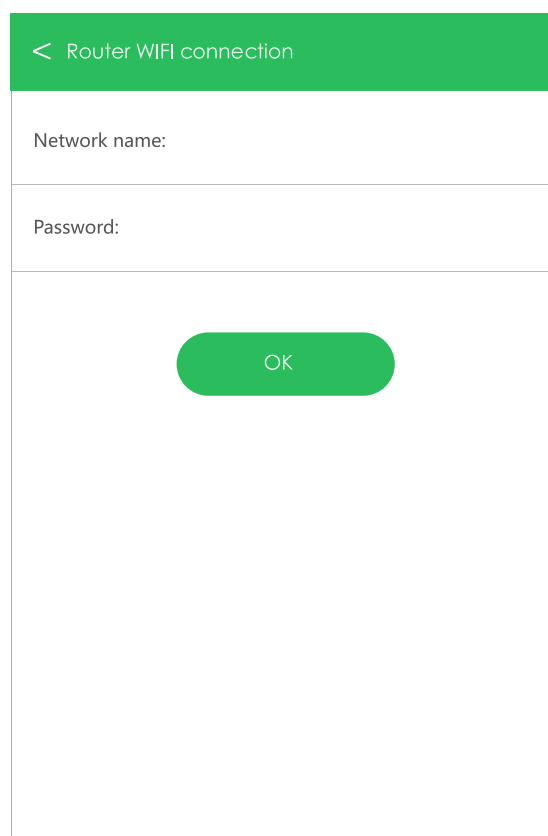

## Connecting WIFI

Internet Name: Connect WIFI ( Make sure there is no need WEB or any other authentication, open DHCP service)

Password: Please input the password of the WIFI

After the setting, the WIFI indicator lights up.

Try to write on the Note.

## Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
