**Battery percentage >90%:** red light flashes.  
**Battery percentage <70%:** white light normal on.  
**Charging case charging:** Red light normal on.  
**Charging case fully charged:** White light normal on.

## 2. Product Operating Method

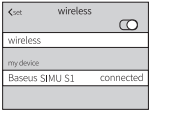

### Step 1-Turn on

The wireless automatically enter the power-on state after the lid of the charging case.

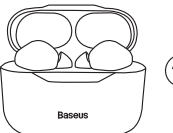

### Step 2-Wireless connectivity

Select the device model name (SMD 12).

### Step 3-Shutdown

Place the earphones back in the charging case and close the lid to complete the shutdown.

### 4. Declaration on hazardous substances and elements contained in electronic products

This product is compliant in accordance with EU 2012/19.

It indicates that the content of the harmful substance in all homogeneous materials of the component is below the limit specified in EU 2012 standard.

X: The content of harmful substances in at least one homogeneous material of this part exceeds the limit specified in EU 2012 standard.

This product complies with EU RoHS 2.0 Directive (2011/65/EU).

Warning: The "X" mark only refers to the "effective limit of environmental protection", not the product quality assurance period. Electronic products all contain various harmful substances such as lead, mercury and cadmium. Once they are overused, harmful substances may leak or mutate, cause pollution to the environment, or cause serious damage to people and property. The term of "environmental protection only" means that all electronic products will be required to use within this effective period; we will not be responsible for the quality of the products due to the safety risks that arise after the safe use period.

Hazardous substances or elements					
Flame Retardancy (FR)	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Polychlorinated Biphenyls (PCB)	Polycyclic Aromatic Hydrocarbons (PAHs)
FR	X	O	O	O	O
Lead	O	O	O	O	O
Mercury	O	O	O	O	O
Cadmium	O	O	O	O	O

 Made in China

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or a experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
