Wireless Pairing :

1. Power on the speaker; the LED will start flashing. Open the Wireless settings on your device and search for "LIFETEKK BTS200." When your device finds "LIFETEKK BTS200," select it and connect.
2. Once the speakers are paired the first time, they will automatically be paired next time without the above pairing operation.

TWS

1. This speaker is True Wireless Stereo (TWS) capable. If you have two LIFETEKK BTS200 speakers, you can pair them together and enjoy stereo music through both speakers.
2. Before attempting to pair the speakers in TWS mode, make sure to unpair the speaker from any previously connected phone or device. To pair the speakers together, follow these steps:
 - Turn on both speakers.
 - Double-press one of the volume buttons on either of the speakers. This action will pair both speakers together, designating this unit as the main unit.
 - Now, you can pair this main unit with your phone and enjoy music through both speakers.

LED Indicator / Light Mode :

1. The LED flashes when the speaker is waiting for a connection and turns a solid color after a successful Bluetooth connection is established.
2. The LED will turn solid red while the speaker is recharging, and it will turn off once the battery is fully charged.
3. To cycle through the LED styles, simply short-press the LED button until you find the desired style.
