

DESIGNED FOR
FUEL SAVINGS
FROM DAY ONE...

Greensmaster® 3320 TriFlex® Hybrid

The first rider to cut with the precision of a walker.

BUILT FOR TOTAL SAVINGS DAY AFTER DAY.

When it comes to total savings, there's no competition.

Count on fuel savings

Energy Savings Mode provides consistent reel speed at lower engine RPM to significantly reduce fuel consumption and noise without compromising productivity or cut quality.

Do more with one machine

Toro's exclusive Tool-Free, Quick-Change™ cutting unit system allows you switch between reels and accessories in just a few minutes! Mow greens then switch to tees, surrounds, thatch, roll greens or spike...

Efficiency that's built-in

Friction-free stainless steel bearings are just one of the many built-in components that help maximize horsepower and minimize fuel consumption.

Turn up productivity

Features such as Quick-Change™ cutting units, lift-gate footrest for easy access to the center cutting unit, no daily grease points, InfoCenter™ onboard display and automotive-style advanced diagnostics all help reduce labor costs.
