ABOUT THE AURA LED APP

Full feature APP lets you control the LED ColorBar remotely directly from your phone or tablet.

- Allows you to choose from a variety of colors
- Enables you to save default settings such as favorite colors and illumination patterns
- Lets you to set custom light-activated alarms and sync to your schedule and lifestyle.

USING YOUR LED COLORBAR

1. Download the free AURA LED App from the App Store or Google Play Store. You may also scan the QR code below to download.

2. Make sure your LED ColorBar is plugged into a power supply via the USB cable.
3. Open the app in your device. Tap to select the menu in the upper-left corner of your screen.

4. Select your preferred Illumilight from the menu of options. Tap the link icon to connect or disconnect a specific LED light (if you have paired multiple units to your device).
5. Use the navigation buttons found at the bottom of the screen to manually adjust your colors, illumination style/pattern, and perform all light controls.

Pay attention to the brightness intensity level as you adjust. The LED display will blink white when it reaches the maximum brightness level.

CARE & IMPORTANT SAFEGUARDS

- To clean, wipe down with a soft dry or damp cloth. Do not use with cleaning agents or other chemical solutions.
- This unit is not waterproof. Do not expose to water, moisture, extreme temperatures, or high levels of humidity.
- This product contains batteries and LED bulbs. Keep away from flammable objects and excessive heat.
- Never attempt to disassemble or modify your LED ColorBar in any way. Doing so violates any warranty in place and may cause permanent damage to the unit.
- Contact the Customer Support team at tzumi.com/Support for assistance
