FAQ / TROUBLESHOOTING

Q: Why is Bluetooth not pairing?

- A: The distance between your phone and the device may be too far.

 Bring the devices close together. OR the unit may already be paired with another device in range. Unpair the unit from the other device.
- Q: Why does the microphone not turn on?
- A: Make sure the unit is fully charged before use. The microphone will not turn on if battery level is very low. Blue light indicates a substantial charge.
- Q: Why is there sound distortion or static when playing music?
- A: Your phone signal may be weak, the volume may be too high or the battery power of the unit may be too low. Check the volume on both the device and your phone and make sure the microphone is full vharged.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE I: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part IS of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
