

URBT-1081

Lantern Speaker Instruction Manual

Thank you for choosing our product. We hope you will enjoy using the appliance. Please read the following chapters carefully so that you can become acquainted with the advantage of this product and its use.

Overview of the components

- 1. Accept call / End call / Calling last number / Play / Pause
- 2. Bluetooth indicator light
- 3. On / Off Button
- 4. Micro-B USB charging port (DC IN)
- 5. Charging indicator light

Charging the intergrated battery

The device is operated via the integrated lithium polymer battery. Charge the battery as follow :-

- 1. Plug the micro B USB plug of the charging cable into the USB charging port of the device.
- 2. Connect the USB connector to the USB port of computer or charging adapter (not included).
- 3) While charging, the charging level LED indicator will remain illuminated RED.
- 4) When charging is complete, the charging level LED indicator will turn solid GREEN.
- 5) Make sure that the USB socket at the port of computer or charging adapter has a maximum output of 5V DC, 500mAh only.
- 6) The charging time varies according to battery use.

Pairing Bluetooth device

Bluetooth involves a technology for wireless radio connection of devices over a short distance. Devices with Bluetooth standard are transmitting between 2.402 and 2.480 Ghz in ISM band. Iterference can however be caused by WLANs, networks, wireless telephones, or microwaves ovens, for example, which operate in the same frequency band.

The device offers you the possibility to use a Bluetooth-enabled device. The functional radius is limited to approx. 15 meters depending on the surroundings and the unit used.

If your playing device supports the A2DP profile (Advanced Audio Distribution Profile) and has a music-player function, then you can also wirelessly transfer music to the device. The A2DP profile involves a multi-vendor Bluetooth profile. By streaming, stereo audio signals are wirelessly transferred between the playing device (source) and the receiving device. To be able to operate the source by remote control, the player needs to support the AVRCP profile (Audio Video Remote Control Profile)

Due to different device manufacturers, models, and software versions, a full functionality cannot be guaranteed.

Logging on devices (Pairing)

Before you listen to music via the unit, you must pair the devices.

- 1) Ensure, that the Bluetooth function is activated in your player (Mobile or music

player). For this, please refer to the operation manual of your player.

- 2. Select the searching mode on your Bluetooth device (refer to your Bluetooth device's owner's manual for details if necessary.)
- 3. Turn on the power of Garden Speaker by briefly pressing the On/Off button. The indicator blue light will start to flash rapidly after a short time. The Garden Speaker is now set to the pairing mode.
- 4. Your Bluetooth device should find and display “Garden Speaker” as a selection, select it and, if prompted, use “0000” as a pin for pairing code, depending on the device manufacturers, model, and software version.
- 5. Verify that you are connected to the speaker. The Bluetooth LED on the Garden Speaker will change to a solid blue and you can hear a signal when pairing is complete.

Speaker operation

The device is equipped with multi functional buttons. For different functions press the respective button briefly or press and hold.

On/Off Button

- 1) Turn on the “Garden Speaker” by pressing the On/Off Button. The Bluetooth indicator light will start to blink.
- 2) Hold and press the “On/Off” Button for 3 seconds to turn off the Garden Speaker until your hear descending beep tones and blue LED indicates blink off. The units are disconnected.

Play/Pause

- 1) Briefly press the Play/Pause button to pause playback
- 2) Press the button again to continue playback

Notes : Depending on the device manufacturers, models, and software versions you need to start the music playback in your player.

Accepting/Ending call

- 1) Press the Play/Pause button, to accept an incoming call.
- 2) To end the call, press the Play/Pause button again
- 3) During an incoming phone call, the music playback will stop. After ending the phone call, the track will continue to play.

Calling the last dialed number

- 1) Press and hold the Play/Pause Button for 3 seconds. The number you called last with your mobile phone will be called. To end the conversation, press the Play/Pause button again.
- 2) Your mobile phone must support this function.

Adjust Volume

- 1) To adust the volume, you must use the external audio device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
