# 1. PREFACE

Unication would like to congratulate you for your choice of the E5 as your communication tool. This user manual will provide you the necessary information to get the optimum performance from your pager. The E5 is a very versatile product and has the ability to satisfy most communication requirements. We sincerely hope you enjoy our brand-new E5 product.

This document is subject to changes without notice. The latest electronic version of the user manual can be downloaded from Unication official website: <http://www.unication.com/>

## 2. PACKAGE INTRODUCTION

### ▶ 2-1. STANDARD PACKAGE

E5 standard package contains the following items:

ITEMS	E5 Pager	Holster Type I	E5 Pager User'S Manual	Ni-HN Rechargeable Battery	Charger	AC Power Adapter	Li battery
							

### ▶ 2-2. OPTIONAL ITEMS

The following are optional items :

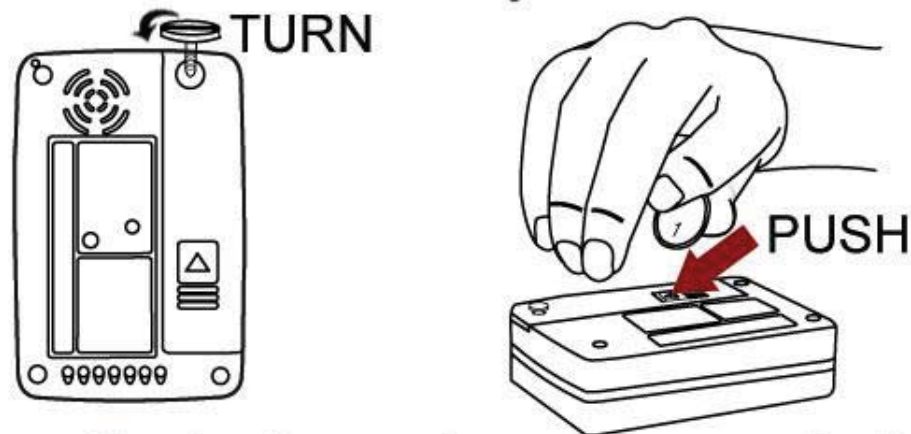

ITEMS	External Antenna	Mini USB	Holster Type II
			

## 3. INSTALLATION

### ▶ 3-1. AA BATTERY INSTALLATION

The E5 is designed to operate with a single AA-size Ni-MH rechargeable battery or an alkaline battery (LR6 is recommended). See the diagram below for the battery door location.

To insert or replace the battery, please remove battery door. Insert one AA battery (Alkaline or rechargeable battery) into the battery compartment.

※Caution: Observe battery polarity.

- a. Loosen the screw by using a coin.
- b. Using a coin to slide the battery door toward the outer edge.
- c. Lift the battery door away from the housing and remove it.
- d. Insert the battery into the battery compartment, taking note of the positive (+) and negative (-) markings on the battery and the pager housing.

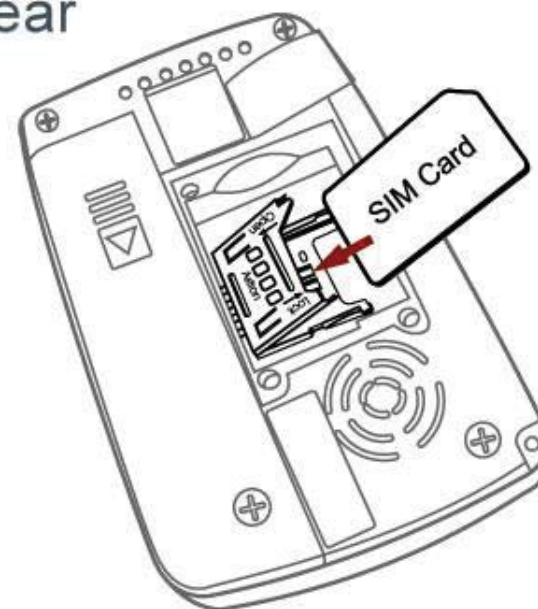

※ Caution:

For the first use, please keep the full charged battery stay in the pager for more than 72 hours to fully charge the backup battery for message retention.

► 3-2. SIM CARD INSTALLATION (GSM MODEL)

Before using the E5 GSM model, you have to install a GSM SIM card, which is provided by your network service agent. Please follow the below steps to install the SIM card.

- a. Loosen the 4 screws which are on the pager rear housing.
- b. Remove the pager rear housing.
- c. Lift the SIM card holder.
- d. Insert the GSM SIM card then place the SIM card holder back.
- e. Slide the SIM card holder forward to lock the SIM card.

► 3-3. LI BATTERY INSTALLATION (GSM MODEL)

After install the GSM SIM card, please follow the below steps to place the Li battery.

- a. Plug the battery connector into the battery connector.
- b. Place the Li battery in the battery component.
- c. Place the rear housing back.
- d. Screw the screws tightly.

## 5. TURNING ON THE PAGER

There are two ways to turn on your pager :

- ▶ 5-1. MANUAL SWITCH ON
  - a. When the E5 is off, press "POWER KEY" for 2 seconds.
  - b. The E5 will turn on and generate a power-on alert and vibration.
  - c. After not operating the pager for seconds , the E5 will process to Standby mode. The activated profile will be displayed on the screen.
  
- ▶ 5-2. BATTERY POWER ON
  - a. The E5 turns on automatically when inserting a battery.

## 6. SELF TEST

### ► 6-1. SELF TEST

When the E5 turns on, it automatically reverts to the “SELF TEST” to determine if the pager is working normally.

a. The testing status and result will be displayed on the screen.

b. If there is any error found, a warning will be displayed on the pager screen. Please contact a Unication representative agent for more information.

## 7. TODAY

TODAY is a folder which stores all the current day's received messages.

### ▶ 7-1. ENTERING TODAY

- Press MENU KEY, the main menu will display.
- Press ▲▼ and OK KEY to move and enter today.

- ※ In the TODAY screen, there are 3 sub-folders for you to check:
- (1) TODAY UNREAD MESSAGE
  - (2) TODAY MESSAGE
  - (3) MESSAGE ALARM

▶ 7-2. UNREAD MESSAGE

a. After entering the TODAY screen, the cursor will stay on "UNREAD MESSAGE". Press OK KEY to enter "UNREAD MESSAGE".

All the unread messages received today will be listed in chronological order.

※ The Message List will be displayed with its folder name, source name and message preview.

※ The tool bar features are the same with "READ MESSAGE".

► 7-3. TODAY MESSAGE

- a. In the "TODAY" screen, press ▲▼ then OK KEY to select and enter "TODAY MESSAGE". All the messages that received today will be saved in this folder.

- ※ The MESSAGE LIST will be displayed with its folder name, source name and message preview.
- ※ The tool bar features are all the same with "READ MESSAGE".

## ► 7-4. MESSAGE ALARM

The messages alarm that will be activated on the day then the pager user is operating the pager, will be saved in this folder.

- a. In the "TODAY" screen, press ▲▼ then OK KEY to select and enter "MESSAGE ALARM".
  - ※ All the message-alarms that will be activated today are listed in chronological order.
- b. Press ▲▼ then OK KEY to select and enter the alarm that you want to look up.

### 7-4-1. MESSAGE ALARM

If a MESSAGE ALARM is selected, press OK to display the selected message alarm. The message content will be displayed on the screen. The TOOL BAR features are the same with "MESSAGE ALARM".

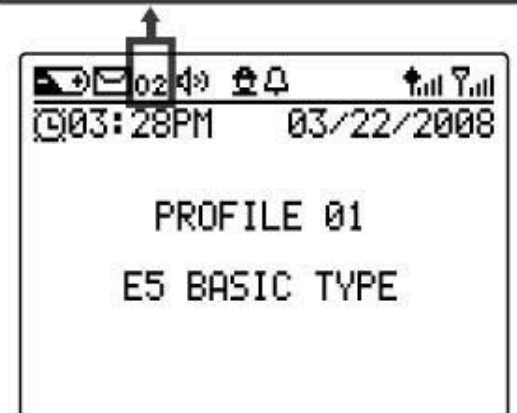

## 8. MESSAGE

- ▶ 8-1. READ MESSAGE
  - a. When the E5 receive messages, the pager will generate a message alert as an indication to remind the pager user that there is a new message received.
  - b. When “Auto Display” is enabled in the PPS, the received message content will be displayed on the LCD automatically.
  - c. Read the displayed new message via pressing OK key or read key. If there is no any key pressed within a default period, the message will be still taken as unread message. The unread message alert will be generated to remind the pager users.
  - d. If the “Auto Display” is enabled, the pager generates message alert when it receives a new message. The messages will be stored in the assigned folder. There are 3 ways to read the received messages:

There are two unread messages.

### 8-1-1. READ MESSAGES BY OK KEY

- a. Press OK key to display the latest message.
- b. If the message is more than one page, press OK to scroll through the pages.
- c. Press ▲▼ to display the last or next message.

### 8-1-2. READ MESSAGES BY READ KEY

- a. If there are unread messages, press the READ KEY to read the unread message directly.
- b. If there is no unread messages, you can also press the READ KEY to display the folder list.

There are two unread messages.

### 8-1-3. READ MESSAGES FROM MESSAGE BOX

- Press MENU KEY to display the MAIN MENU list. The cursor will stay on MESSAGE BOX.
- Please press OK KEY to enter MESSAGE BOX. All the programmed folders will display on the screen.
- Please press ▲▼ to select the desired folder.

※ If there are unread messages, an UNREAD FOLDER will be on the top of the folder list.
