

FCC ID: AMWUH302

The following statement will be added to the Owner's Manual on a "running change" basis. Until then, this statement will be added to the user's documentation as an addendum sheet.

Caution - Before operating this device, be sure to place the antenna in the vertical position. This will offer the best performance of your modem, and at the same time it will reduce the risk of possible exposure to electromagnetic radiation which is emanated from the antenna.
