

FCC Compliance Class B Digital Device:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

CAUTION:
Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

RF exposure warning:
This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End users and installers must be provide with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

TapTap Music & Light Show Creator
TapTap is designed to provide you with an easy way to create a unique musical light show with your smart phone or tablet. It can be used both indoors and outdoors.

Compatibility of light strings
TapTap is compatible with most 110V Christmas light strings with standard AC plug. Please note that the light strings cannot have an existing controller.

Inside the box

TapTap device x1 Ground Stake x1 Power Cable x1
Phone Jack Plug x1 AV Dust Cover x2 Plug Cover x6 Waterproof Cover (AC-Output) x1

*Waterproof Covers will keep the TapTap device from dust and/or humidity when not in use.
*Use the waterproof cover when not using the TapTap device with an outdoor string light to protect the TapTap.

Components and Light Indicators

1. Speaker
2. Volume Light
3. Volume Down Button
4. Cloud Service Light (with symbol)
5. Wifi Signal Strength Light
6. Volume Up Button
7. Power Button
8. AC-Output 110V
9. Reset Button
10. Home Extender On/Off Switch
11. Audio-L/R
12. Phone Jack
13. Wall Mounting Hole
14. AC-Output 110V
15. AC-Output 110V

Installation of Your TapTap

For Wall Mounting

1. Attach the two screws to the wall.
2. Mount your TapTap on the screws through the two mounting holes on the back of TapTap.

For Ground Staking

1. Press the pole into the ground.
2. Assemble the stand to the pole using the screws and metal gasket.
3. Place the TapTap device on the stand, then fix the screws on the left and right.

Setup 1: Power on TapTap

1. Connect the power cable to the TapTap device.
2. Plug your light strings into the six outlets on the TapTap. Each outlet controls a single light string that will flash along with the music. Please notice that don't exceed the maximum load for respective outlet (VA), and it's for Christmas light string only. E.g., 1A=50mA (per light string) x maximum 20 light strings
3. Press the power button. The Wifi signal LED lights and cloud service light will start to blink. The blinking lights will speed up shortly after.
4. Wait for couple seconds until the Wifi signal LED lights will be flashing left and right (1 → 3 → 1 → 3). This indicates that TapTap is boot completely.

AC power adapter Power Button

Setup 2: Get the Application

1. Download the TapTap from the App Store or Google Play simply searching 'TapTap Light Show'.
2. Launch the app and create a new account, then start setting up your TapTap. Please make sure you enter a valid email address.
* The TapTap app supports smartphone and tablet.

Setup 3: Connect TapTap to WiFi Router

1. When logging in the first time, click "setup now" button on the screen of the TapTap app.
2. Leave the TapTap app, and go to the wifi settings of your mobile device. Then connect to the WiFi network starting with "TapTap_001".
3. Return to the TapTap app, then select your local network and enter your WiFi password.
4. The Wifi signal strength lights on the TapTap device will start to blink, indicating that Wifi is joining with your TapTap. If TapTap has been successfully connected to your Wifi, the indicators will stop constantly blink and the cloud service light will light up.

Setup 4: First Musical Light Show
TapTap device comes with a musical light show already loaded.

1. Just click the menu button "☰" on the top left side of the main screen of the TapTap app, and select 'player select'.
2. Choose your TapTap.
3. There is one musical light show pre-installed in your TapTap. Click on the "Music icon" to go to the player on your TapTap.
4. Click the play button "▶" to start the musical light show.

*In order to improve the user experience on TapTap and TapTap app, we will periodically update our services. For further information about TapTap app, please check our website.
