## Appendix Technical parameters

Specification
Measurements(LxWxH): 146.8x97.5x19mm

Weight(grams): 110g
Operational Range: up to 10 meters

Transmit power: +5db Max

Operation voltage: 3.3V

Operation current: <50mA Charging current: <300mA

Sleep current: <300III

Computer system requirements

Windows Mac OS

Android/iOS OS

#### Maintenance

Do not attempt to disassemble the device or replace rechargeable battery. Doing so will void the warranty. The battery will discharge if stored for a long period of time without usage.

Use the specified charger. Disconnect the device

after the battery has been fully charged. Overcharging

the battery.

Do not expose the device in extreme heat or cold.

Extreme temperatures will cause the life span of

the battery to shorten.
Use only a damp cloth with mild soap to clean the

device. Solvents and other cleaning agents may cause damage to the device.

### **Troubleshooting**

Below are some basic troubleshooting scenarios for the device. Please contact support from the place of purchase if you are unable to resolve any issuse with the device. Problem Possible issue Solution

## Pairing and establishing connection with computer.

Windows XP/2000

Let's take Microsoft Bluetooth Software as an example to describe Bluetooth Search, Pairing and Connection, other Bluetooth software please refer to its own user manual.

1.Insert Bluetooth adaptor into any vacant USB port on your computer, please be patient to wait system search and install new hard driver. Then bluetooth icon will appear on the taskbar.

If your computing device has integrated bluetooth receiver refer to the user manual to enable that receiver.

2.Turn on unit by moving the power switch to ON, press key BLUETOOTH RESET indicated till LED3 blink then release it(about 2-5 seconds), that means your unit is ready and searching other Bluetooth device for pairing.

Note: during operation, do not press this key, or your bluetooth keyboard will be disconnected from your computer

- 3.Click "Start", "Control Panel" (make sure you're in Classic View), and then double-click Bluetooth Devices. Select "Add".
- 4.In the Add Bluetooth Device Wizard, select the "My device is set up and ready to be found check box", and then click"Next".
- 5. After icon of "Bluetooth Keyboard" appear,click "Bluetooth Keyboard",and then click "Next".

6.When the wizard asks you which passkey you want to use, click "Choose a passkey for me". Then click "Next". 7.After you are prompted to enter your passkey, please type the passkey on Bluetooth Keyboard, and then press Enter. You also can choose no passkey to go next step.

PLEASE DO REMEMBER TO USE THE KEY OF BLUETOOTH KEYBOARD WHEN INPUT PASSKEY. 8. In the final page of the wizard, click Finish, it maybe take a few seconds for new hardware driver installation before click finish. So please be patient.

Your Bluetooth Keyboard should now be successfully paired with your PC and ready to use.

9.LED3 will goes out when connection is established successfully.

NOTE: keyboard functions WILL NOT work until a bluetooth connection with the computing device is completed.

Windows 7 (Bluetooth Receiver is not included)
Plug bluetooth receiver into any vacan USB port on
your computer, please be patient to wait the system
recognize your device, it maybe take several minutes.
When new hardware has finished driver installation,
an icon will appear in the task bar.

Right click icon of bluetooth, select "Add a Device"

An window like below will popup indicating that system is search a devie to add...

2 AM LOS		-
	vice to add to this computer contracts but to the recoducer and digits then been.	
	Searching for division. Make over your division is discountable.	
	no depart first mudicical	

Turn keyboard on by sliding the power switch to ON, LED3 will flash one time, then press key "bluetooth reset" till LED3 flash. And Bluetooth Keyboard will appear in the window. Select it and click "Next"

Then you will be required to input a pass code for your device, please do type the code with bluetooth keyboard, then press Enter

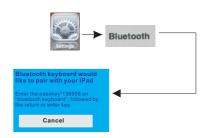

NOTE:1.Do not tap key "Bluetooth Reset" or you will disconnect its connection during operation.

keyboard functions WILL NOT work until a bluetooth connection with the computing device is completed.

#### CONNECT TO iPAD/ iPhone
