

# Bluetooth Module BM-GP-BR-65 User Manual (for Linux)

# Bring up Bluetooth

1. Power up BR-65 by Plug in USB connector

2. Check Serial Port device created in Linux System

```
livedvd@HP-ProBook-4540s: ~/Desktop/B... x livedvd@HP-ProBook-4540s: ~/Desktop/B... x
livedvd@HP-ProBook-4540s:~/Desktop/BCM_BT_INIT/BG-65$ ls -l /dev/ttyUSB*
crw-rw--- 1 root dialout 188, 0 2013-02-21 10:32 /dev/tt**yUSB0
livedvd@HP-ProBook-4540s:~/Desktop/BCM_BT_INIT/BG-65$
```

# Bring up Bluetooth

## 3. Use prepared script to download firmware

```
livedvd@HP-ProBook-4540s:~/Desktop/BCM_BT_INIT/BG-65$ ls -l /dev/ttyUSB*
crw-rw---- 1 root dialout 188, 0 2013-02-21 10:32 /dev/ttyUSB0
livedvd@HP-ProBook-4540s:~/Desktop/BCM_BT_INIT/BG-65$ make up
```

## 4. OS requests to get ROOT permission by typing password.

```
livedvd@HP-ProBook-4540s:~/Desktop/BCM_BT_INIT/BG-65$ ls -l /dev/ttyUSB*
crw-rw---- 1 root dialout 188, 0 2013-02-21 10:32 /dev/ttyUSB0
livedvd@HP-ProBook-4540s:~/Desktop/BCM_BT_INIT/BG-65$ make up
sudo ./bcm_patchram_plus -d --no2bytes --tosleep=5000 --patchram BCM20702B0_002.
001.014.0198.0000_Generic_UART_Class2_20MHz_WICED.hcd --baudrate 3000000 --enable
hci /dev/ttyUSB0
[sudo] password for livedvd:
```

## 5. Downloading process would be ended by “Done setting line discipline”.

```
01 18 fc 06 00 00 c0 c6 2d 00
received 7
04 0e 04 01 18 fc 00
Done setting baudrate
Done setting line discipline
|
```

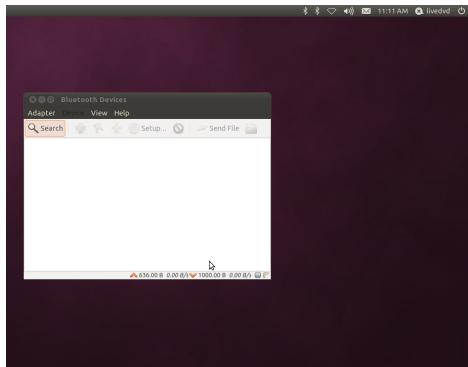

# Bring up Bluetooth

6. Use 'hciconfig -a' command to check Bluetooth device status.  
It should show "UP RUNNING".

```
ivedvd@HP-ProBook-4540s:~/Desktop/BCM4329$ hciconfig -a
ci0:  Type: BR/EDR  Bus: UART
      BD Address: FC:4D:D4:2D:C7:EC  ACL MTU: 1021:6  SCO MTU: 64:1
      UP RUNNING PSCAN ISCAN
      RX bytes:720 acl:0 sco:0 events:26 errors:0
      TX bytes:624 acl:0 sco:0 commands:26 errors:0
      Features: 0xbff 0xfe 0xcf 0xfe 0xdb 0xff 0x7b 0x87
      Packet type: DM1 DM3 DM5 DH1 DH3 DH5 HV1 HV2 HV3
      Link policy: RSWITCH SNIFF
      Link mode: SLAVE ACCEPT
      Name: 'HP-ProBook-4540s-0'
      Class: 0x5a0100
      Service Classes: Networking, Capturing, Object Transfer, Telephony
      Device Class: Computer, Uncategorized
      HCI Version: 4.0 (0x6)  Revision: 0x2000
      LMP Version: 4.0 (0x6)  Subversion: 0x410e
      Manufacturer: Broadcom Corporation (15)
```

# Using Object Push Profile (OPP)

1. Click system Bluetooth icon on the status bar, a “Bluetooth Device” dialog pop up.

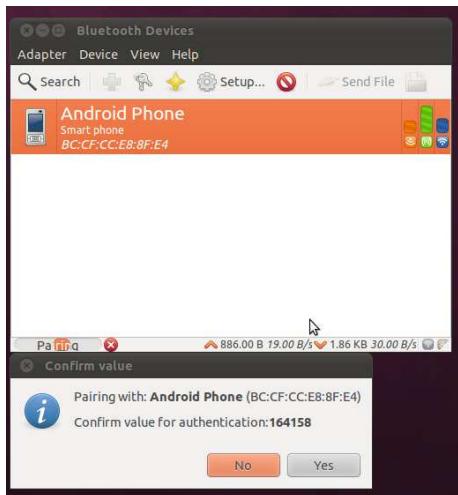

2. Set smart phone with Bluetooth function into discoverable mode, and click “Search” Button on the dialog. Wait for a while, a new item will be showed on the list.

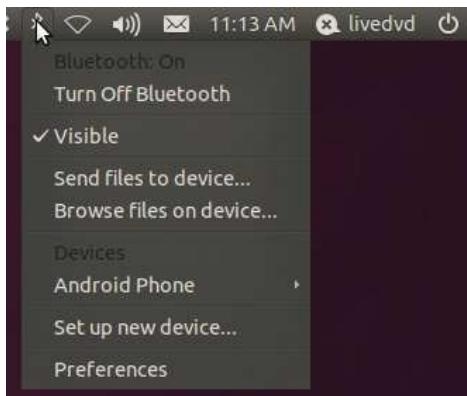

# Using Object Push Profile (OPP)

3. Click the device item, and pair with it. It may request the check the PIN number, click “Yes” to process.

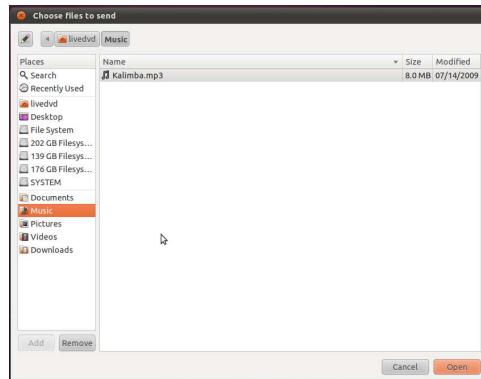

4. Right click the Bluetooth icon, and click “Send files to device”

# Using Object Push Profile (OPP)

5. Select on the file on the system, in this case a mp3 file is selected.

6. Select the paired device.

# Using Object Push Profile (OPP)

7. A progress pop up. You may need to confirm the request on the smart phone.

8. After confirming the request, the transmission will be started.

## Appendix A Specification

The BM-GP-BR-65 module complies with the following features and standards;

Features	Description
Bluetooth Standards	IEEE 802.15.1
Antenna Connector Port	Chip antenna
Frequency Band	2.402 GHz – 2.480 GHz
Number of Sub Channels	CH0 to CH78
Modulation	GFSK, pi/4-DQPSK, 8-DPSK
Supported data rates	Basic (1Mbps), EDR (2Mbps, 3Mbps)

The OEM integrator has to be aware not to provide information to the end user regarding how to install or remove this RF module in the user's manual of the end product which integrates this module. The end user manual shall include all required regulatory information/warning as show in this manual.

## **End Product Labeling (FCC)**

When the module is installed in the host device, the FCC ID label must be visible through a window on the final device or it must be visible when an access panel, door or cover is easily re-moved. If not, a second label must be placed on the outside of the final device that contains the following text: "Contains FCC ID: COFBMGPBR65".

The grantee's FCC ID can be used only when all FCC compliance requirements are met.

## **Required FCC Compliance Statement for Host Integration**

To integrate this module into the host, the host manufacturer is responsible for the applicable FCC rules, including the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

In the user manual of the host device, the following statements are required to be included.

- This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## **FCC Module Integration Restriction:**

This module has been certified by FCC as single module approval with the following restrictions:

1. The chip antenna with 2.5 dBi gain was verified in the conformity testing. Radiated transmit power must be equal to or lower than that specified in the FCC Grant of Equipment Authorization for FCC ID: COFBMGPBR65. A separate approval is required for all other operating configurations.
2. This module can be installed in portable, mobile, or fixed application. To assure RF Exposure compliance, the antenna must not transmit simultaneously with any other antenna or transmitter, except in accordance with FCC multi transmitter product procedure.
3. If any other simultaneous transmission radio is installed in the host platform together with this module, or above restrictions cannot be kept, a separate RF exposure assessment and FCC equipment authorization is required.

## **End Product Labeling (IC)**

When the module is installed in the host device, the IC label must be visible through a window on the final device or it must be visible when an access panel, door or cover is easily re-moved. If not, a second label must be placed on the outside of the final device that contains the following text: "Contains IC: 10293A-BMGPBR65".

The grantee's IC ID can be used only when all IC compliance requirements are met.

## **Required IC Compliance Statement for Host Integration**

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

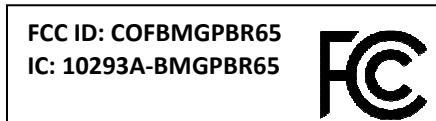

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

CAN ICES-3(B)/ NMB-3(B)

## **IC Module Integration Restriction:**

1. The chip antenna with 2.5 dBi gain was verified in the conformity testing. In case any modification in the radio equipment which do change the electrical characteristics beyond the rated limits established by the manufacturer and accepted by Industry Canada for IC ID 10293A-BMGPBR65, a separate approval is required.
2. This module can be installed in portable, mobile, or fixed application. To assure RF Exposure compliance, the antenna must not transmit simultaneously with any other antenna or transmitter, except in accordance with IC multi transmitter product procedure.
3. If any other simultaneous transmission radio is installed in the host platform together with this module, or above restrictions cannot be kept, the Canada authorization is no longer considered valid and the IC ID cannot be used on the final product. In these circumstances, the OEM integrator will be responsible for re-evaluating the end product (including the transmitter) and obtaining a separate Industry Canada authorization.

## **R&TTE Regulation:**

In all cases assessment of the final product must be met against the Essential requirements of the R&TTE Directive Articles 3.1(a) and (b), safety and EMC respectively, as well as any relevant Article 3.3 requirements.

1. The chip antenna (gain: 2.5 dBi) was verified in the conformity testing, and for compliance the antenna shall not be modified. A separate approval is required for all other operating configurations, including different antenna configurations.
2. If any other simultaneous transmission radio is installed in the host platform together with this module, or above restrictions cannot be kept, a separate RF exposure assessment and CE equipment certification is required.

\*\*\*\*\*

### ***Europe – EU Declaration of Conformity***

This device complies with the essential requirements of the R&TTE Directive 1999/5/EC. The following test methods have been applied in order to prove presumption of conformity with the essential requirements of the R&TTE Directive 1999/5/EC:

EN 60950-1: 2006+A11:2009+A1:2010+A12:2011

EN 62311:2008

EN 62479 :2010

EN300 328 V 1.8.1:2012

EN 301 489-1 V1.9.2:2011

EN 301 489-17 V 2.2.1 :2012

National Authorities were informed according to Article 6.4 of Frequency Notification.

Special Requirements are considered. The product is labeled with CE Marking.

# CE 0560
