

TKP-7000

IN-WALL COLOR TOUCHSCREEN / KEYPAD

Stunning, Colorful Touch Control for Your Home or Office

Enjoy this striking, full-color touchscreen for powerful control of all things important to you, and reach new levels of convenience. One touch puts you in complete command of all your entertainment, lighting, climate, and more. Featuring a 7-inch, graphical color screen, this controller is "always-on" and sits in-wall in a sleek, low-profile enclosure that looks fabulous in any environment. The TKP-7000 is one of many options for control within the URC Total Control line of products. And, because it sits on the network, it is well-suited for both new and existing homes and buildings.

See what's going on with just one touch.

Graphics Galore

For intuitive one-touch control, the TKP-7000 offers extraordinary graphics which can be personalized to match your needs. Display eye-catching graphics, see music album cover art and information, enjoy your personal photo slide show and experience at-a-glance info such as weather and time. Plus, every screen can be changed by using simple finger "swipes" on the display for instant access to handy visuals and controls.

Keep An Eye On Everything

With URC cameras, this touchscreen can also display live, full-motion video from in and around your home or office, so you can keep an elegant eye on everything without getting out of your chair. Imagine being able to fix dinner while checking on the kids in the pool. When the doorbell rings, you see who's at the door and determine if it's best to answer – or not. For businesses, the TKP-7000 provides the ideal interface to check on the front lobby from anywhere. Don't just take control of it all – take control in style with URC.
