

TRF-ZW1

TOTAL CONTROL Z-WAVE® EXTENDER

Gateway to control countless popular products

Designed from the ground up to be a seamless part of URC's Total Control® system, the TRF-ZW1 provides a gateway to allow control of Z-Wave®-enabled products. Enjoy control of Z-Wave door locks, lighting and more from any Total Control interface including remotes, keypads and smart phones or tablets. This piece opens up Total Control

to the broadly appealing world of Z-Wave integration providing yet another avenue to take total control of more components in and around your workplace with URC.

Keep your eye on things at work

Using URC's handheld remotes or brilliant in-wall touchscreens, you can securely lock and unlock the doors or adjust lighting while at work. Or, using your iPad® or iPhone®, you can check on things and adjust them from afar. It's the ideal solution for true access control. Just imagine the luxury of a completely wired office where all electronics talk to each other, and to you, via URC Total Control interfaces for the workplace of the future.

Tech Talk

FEATURES

- Secure remote device management and configuration (subscription required)
- Two-way control for lighting and door locks with all associated two-way enabled Z-Wave products (e.g.: Schlage, Baldwin, Qwikset, Black & Decker, Yale, Leviton, Cooper, GE, and more)
- One-way control for all Z-Wave-enabled products (e.g.: Somfy, RCS, Honeywell, First Alert, and more)
- Macro Integration capable. For example, an employee could enter a specific code on a Z-Wave Door Lock and based on that personalized code, the Total Control MRX-10 can set the premises the way that they prefer it.
