

USER'S MANUAL AND COMPLIANCE STATEMENT

Model: **AW1102**
Trade mark: **VISTEON**
Car Manufacturer: **SMART & RENAULT**

If the user tries to start the engine without the proper key the Immobilizer system will not allow the engine to start helping to prevent the vehicle theft.

Operation

When you start the engine with a key that the system recognises, the system will allow the engine to continue running. However, if someone attempts to start the engine with an unrecognised key, the system will stall the engine immediately after it start.

Note

The keys carry a unique electronic code. For this reason and to assure your safety, a replacement key is only possible through an authorised RENAULT/SMART dealer. Always keep a replacement key in case one is lost. If a key is lost contact an authorised RENAULT/SMART dealer as soon as possible.

Maintenance

RENAULT cannot guarantee the system's operation if the system has been modified or if any added-on equipment has been installed to it. If you have a problem with the Immobilizer system or the key, consult an authorised RENAULT dealer.

COMPLIANCE STATEMENT FOR IMMOBILIZER AW1102:

FCC ID:QI8-AW1102

Compliance statement (part 15.19)

This device complies with part 15 of the FCC Rules and to RSS210 of Industry Canada. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Warning (part 15.21)

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC: 4419A-AW1102

Le présent appareil est conforme aux CNR d'Industrie Canada applicable aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage.
2. L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
