Wireless Presenter Manual

Wireless presenter is special for any presentation of PowerPoint playing! With it, you don't need to stand beside your computer or have an additional person click the slide for you!

It combines the functions of a laser pointer, a remote control, a wireless mouse, a wireless keyboard, a clock, a counter and a portable storage device. It is tailored as a convenience handy-tool for presentations, teaching, meetings, speeches, trainings.

It consists of two parts: transmitter and USB receiver.

Advantage:

1. Easily control the pace of your presentation

You could go around and enables you to control your presentation wirelessly up to 8 meters.

2. LCD screen !Unique time and vibration reminding

It is more convenience for you. Being presentation or be at other place. It is very useful!

3. Multifunctional presenter

It is same as multifunctional wireless remote control for PowerPoint playing. Any laser pointer, wireless mouse or keyboard shortcut keys, clock and second counter etc. If you need flash memory, it is optional for no memory or built-in 64/128/256/512/1024MB.

4. Easy to use

It is USB plug-and-play. No driver required. Easy and simple!

5. Save power design

The LCD will enter into sleep mode if no touch any key of transmitter 60 seconds (out of setting mode). To press any key to resume if necessary!

I. Operating system

Windows 98/ME/2000/XP/2003, Mac OS, Linux

II. Parts Description

Transmitter Front View

Transmitter Side View

USB Receiver

III. Setup

Plug the receiver into the USB port on your PC. The system will automatically search for the new hardware and complete the setup.
(Attention: you may need Win98 disk if your computer runs under Win98/SE OS. The area in front of the receiver within a 45° radius must be kept clear of any objects to avoid blocking of signal.)

Caution:

Changes or modifications to this unit not expressly approved by the party responsible for compliance will void the user's authority to operate the equipment. Any change to the equipment will void FCC grant.

NOTE:

This equipment has been tested and found to comply with the limits for a digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

1. Do not insert battery into the presenter in the wrong direction.
2. Do not leave a dead or exhausted battery in the presenter
3. If you do not use the presenter for a long period of time, remove the battery to avoid possible damage from battery corrosion.
4. If the presenter does not function correctly or if the operating range becomes reduced, try to replace the battery with a new one.

VIII. Technical parameter

Remote Controller	
Control Distance	> 25 meters
Battery	AAA(7) × 2
Working Voltage	2.4—3.5V
Wireless sending method	RF
Frequency	433.92MHz±75kHz
Modulation	OOK
Output Power	0dbm
Laser Power	<5 mW
Wave length	650nm
Size	120×30×13mm
Weight	30g

CAUTIONS:

Please note that laser radiation is harmful to the eye. Do not look directly into the aperture while the laser is operation!
Laser pointer can be harmful if used improperly. Please keep out of reach of children!
