

Integrative Mouse Presenter

User's Manual

Be sure to carefully read this user manual first for the proper use of the Integrative Presenter and keep it for future reference.

Instruction

It is a great tool for PowerPoint presentations! With it, you don't need to stand beside your computer or have an additional person click the slide for you!

It contains two parts: transmitter and USB receiver.

Features:

1. Easy carry

The transmitter and receiver are integrated into one unit for easy carry!

2. Easily control the pace of your presentation

Advanced radio frequency (RF) technology that works through walls and the controlling distance is up to 10-meters / 30-feet away, so you never have to stand at beside of your computer.

3. Multifunctional presenter

It combines the functions of a laser pointer, trackball mouse, multimedia control and hotkeys.

4. Easy to use

It is USB plug-and-play. No driver required. Just plug the receiver into the USB port on a PC and it works within seconds.

I. Operation System

Windows 2000 and above, Windows XP, Vista, Win 7

II. Operating Hints

1. For optimal performance and RF reception, please place the receiver at least 15cm away from all electrical devices, such as your monitor, speakers or external storage devices.

2. If battery is low, the control distance will be shorter, please replace battery in time.

1

3. The presenter will enter into sleep mode if there is no operation about 5 minutes. It will wake up the mouse if any key is pressed.

III. Functions:

Icon	Functions	Functions instruction
◀	Page Up	Press and it works as "PageUp" key on the keyboard
▶	Page Down	Press and it works as "PageDown" key on the keyboard
	Mouse left button	Press the track ball, it works as the "mouse left key" Keep pressing and then move the track ball, it works as "drag" function; Pressing quickly twice equals to double-click function.
	Trackball	It works as an optical mouse; Move the track ball to move the mouse cursor.

2

R	Mouse right button	Press and it works as the "mouse right key"
*	Laser key	Press to emit laser beam
	Indicator light	Press any key, the indicator light will be on. Release your hand, the light will be off.

IV. Battery installation

● The product is powered by 2x AAA battery.

● Open the battery cover, and insert 2x AAA battery into the battery holder.

● Battery negative(-) is left and positive (+) is right as below.

● Put the battery cover back into position.

Note

1. Do not insert battery into the device in the wrong direction.

2. Do not leave bad or exhausted battery in the device.

3. If you do not use the device for a long period of time, remove the battery to avoid possible damage from battery corrosion.

4. If the device does not function correctly or if the operating range becomes reduced, try to replace the battery with new one.

3

V. Technical parameters

Transmitter

RF Frequency	2.4GHz
RF Output power	0dBm
Sensitivity	-90dBm
Control distance	Up to 10 meters
Laser wavelength	650nm
Laser distance	>200m
Max output	< 1mW or < 5mW
Battery	2 x AAA
Working voltage	2.4~3.0V
Sleep current	< 50uA
Dimension	12x3.3x2.57CM

Receiver

Operation system	Windows 2000 and above, Windows XP, Vista, Win 7
Interface	USB1.1, Compatible with USB2.0
Working voltage	USB electricity supply (4.5~5.5V)
Dimension	3.65x1.46x0.76CM

VI. Safety Measures

● To avoid possible eye damage, never point the presenter at people especially their faces, or look directly into the presenter's laser beam.

● Avoid pointing the presenter's laser beam at a mirror or other highly reflective surface.

● Keep the presenter away from children.

● Never view the presenter's laser beam using telescopic devices, such as a microscope or binoculars.

4

● Any attempt to disassemble, adjust or repair the presenter may result in exposure to laser light or other safety hazards.

NOTE

The product adopts advance RF technology, the USB receiver will identify the first transmitter which is used. If you want to use different transmitters with the same receiver, please pull off the receiver and plug it again, after 6 seconds, press any key of the transmitter you want to use. Then it can work successfully.

5

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection

6

against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation

7

between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.
