METEOR MADNESS

Meteor Madness: What is it?

In this game, you must move your spaceship in different directions and shoot all of the meteors on the screen. An emergency shield can be used to protect your spaceship against the meteors for a limited period of time.

Where is it?

You can find 'Meteor Madness' in the Games folder of your **VTech® e-Mail Express™**.

When do I use it?

Anytime you need to pause to enjoy the finer things in life.

Starting Meteor Madness

1. Highlight "Meteor Madness" in the Games folder using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screen, you can select a difficulty level for the game. Level 1 is the easiest and Level 5 is the most difficult. The higher the level the more meteors there are flying around the screen.

```
┌─────────────────────────────┐
│       Meteor Madness         │
│                              │
│   LEVEL  ‹3-MIDDLE      ›     │
│   SHIELD ‹5 Times›           │
└─────────────────────────────┘
```

3. On the same screen, you can also set the number of times you will allow yourself to use the emergency shield.

4. Press the 'Enter' key to confirm your settings.

5. The next screen is the main Meteor Madness screen.

41

```
                                    SHIELD
  ·                          @     SHIPS:  3
  @     @    @                     LEVEL:  5
                                   SCORE:  60
```

Playing Meteor Madness

The objective of the game is to protect your spaceship during
a meteor shower. As meteors fly towards your spaceship at
high speeds, you must use your laser cannon to shoot them
before they hit you. If a meteor hits your spaceship, your
spaceship is destroyed. You only receive three spaceships
during one game of Meteor Madness. The game ends after
you lose all of your spaceships.

Here's how to control your spaceship:

Use the 'Left' and 'Right' arrow keys to rotate your spaceship.
The 'Up' and 'Down' arrow keys can be used to move your
spaceship on the screen. If you hold down either key, your
space ship will move faster in one direction. To make your
spaceship slow down, press the arrow key that is opposite of
the direction you are flying.

Use the 'Space' key to shoot your laser cannon at the meteors.
If a meteor is heading straight for your spaceship, and you do
not think you can shoot it before it hits you, press the 'S' key to
activate your emergency shield. The shield will temporarily
protect your spaceship from the approaching meteor.

Scoring

You receive 50 points for every meteor that you destroy. After
you have destroyed all of the meteors on one level, you will
receive 200 bonus points.

Meteor Madness ends after you lose all of your spaceships.

42

EGG CATCHER

Egg Catcher: What is it?

In this game you must catch all of the falling eggs before they hit the ground.

Where is it?

You can find Egg Catcher in the Games folder of your **VTech® e-Mail Express™** .
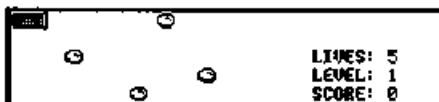

When do I use it?

Whenever you're up for some egg-citing fun!

Starting Egg Catcher

1. Highlight "Egg Catcher" in the Games folder using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screen, you can select a difficulty level for the game. Level 1 is the easiest and Level 5 is the most difficult.

```
            Egg Catcher

        LEVEL  《5-DIFFICULT》
        LIVES  《5》
```

3. On the same screen, you can also set the number of baskets you will give yourself to catch the eggs.

4. Press the 'Enter' key to confirm your settings.

5. The next screen is the main Egg Catcher screen.

```
                    ●
      ●
                         ●        LIVES:  5
              ●                   LEVEL:  1
                                  SCORE:  0
```

43

Playing Egg Catcher

The objective of this game is to use a basket to catch all of the falling eggs before they hit the ground. You can control your basket using the 'Up' and 'Down' arrow keys. The eggs fall at different speeds, so you have to react quickly to move your basket to the correct place. If an egg falls on the ground, you lose one basket. Egg Catcher ends when you have lost all of your baskets.

Scoring

You receive 20 points for every egg that you catch.

Egg Catcher ends when you have lost all of your baskets.

ALPHA INVASION

Alpha Invasion: What is it?

In this game you must use a laser cannon to protect your planet from attacking letters.

Where is it?

You can find Alpha Invasion in the Games folder of your **VTech® e-Mail Express™**.

When do I use it?

Whenever you feel the need to defend your planet from the relentless invasion of attacking letters!

Starting Alpha Invasion

1. Highlight "Alpha Invasion" in the Games folder using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screen, you can select a difficulty level for the game. Level 1 is the easiest and Level 5 is the most difficult.

```
         Alpha Invasion

    LEVEL  ‹3-MIDDLE      ›
    LIVES  ‹5›
```
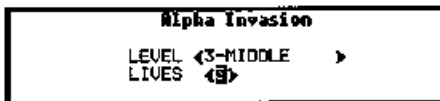

3. On the same screen, you can also set the number of laser cannons you will give yourself to defend your planet.

4. Press the 'Enter' key to confirm your settings.

5. The next screen is the main Alpha Invasion screen.

45

Playing Alpha Invasion

The objective of this game is to defend your planet from the rows of attacking letters using your laser cannon. You can also use the shields to protect yourself from the attacking letters. Be careful not to shoot your own shields, or they will be destroyed and disappear from the screen!

Use the 'Up' and 'Down' arrow keys to move your laser cannon up and down. You can hide behind your shields to dodge the lasers of the attacking letters. Don't stay behind your shields too long, because if they are hit three times by the lasers from the attacking letters, they will be destroyed.

Use the 'Space' key to shoot your laser cannon at the attacking letters.

Scoring

You receive 10 points for every letter that you destroy. Occasionally, a UFO will fly across the top of the screen. You receive 100 points for every UFO that you destroy.

Alpha Invasion ends when all of your laser cannons are destroyed or when the attacking letters reach your planet.

46

GOLF

Golf: What is it?

In this game you must get the golf ball into the hole using as few strokes as possible.

Where is it?

You can find Golf in the Games folder of your **VTech®
e-Mail Express™** .

When do I use it?

If you don't have time to play 18 holes on a real golf course, you can play a quick nine on your **VTech® e-Mail Express™.**

Starting Golf

1. Highlight "Golf" in the Games folder using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the same screen, you can also set the number of holes you want to play.

```
            Golf

       NO. OF HOLE  ‹9›
```
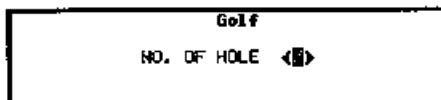

3. Press the 'Enter' key to confirm your settings.

4. The next screen shows you the hole number, the par and the distance to the hole.

```
       HOLE      1 of 7
       PAR       7
       DISTANCE  241

       ROUND     0
```
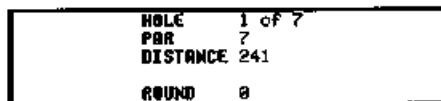

5. Press the 'Enter' key to move to the next screen and begin playing the first hole.

47

```
┌──────────────────────────────────────────────┐
│  ▒    DISTANCE      HOLE  : 1 of 7             │
│  ▒       152        STROKE: 0                  │
│  ▒      ST                                     │
│  ▒                  ROUND : 0                  │
└──────────────────────────────────────────────┘
```

Playing Golf

Like real golf, the objective of this game is to use as few strokes as possible to put the golf ball in the hole. The Golf game has determined what is "par" for each hole. Par is the number of recommended strokes (swings) required to get the golf ball into the hole. To achieve a better score, you must get the golf ball in the hole at or under par for each hole.

You can use any key on the keyboard to swing your golf club. The longer you hold down a key to swing your club, the harder the ball will be hit. Every time you hit the golf ball, you will see the distance (in yards) between you and the hole decrease. The closer you get to the hole, the softer you want to hit the golf ball. You can hit the golf ball softer by reducing the amount of time you hold down a key to swing your club.

Scoring

Scoring is based on the "par" score and how many strokes you took to play all the holes. Since you can decide how many holes you want to play, "par" will vary from game to game.

Every golfer begins with a score of 100. Your final score is determined on how many strokes you took to finish all the holes.

Here's how to score points in Golf:

You receive 100 points for every stroke under "par" you are after finishing all the holes.

48

You lose 20 points for every stroke over "par" you are after finishing all the holes.
You receive zero additional points if you finished all the holes at "par".

CHANGE LOCATION

CHANGE LOCATION: What is it?

Depending on your vtechworld.com service plan, you can use the Change Location tool to change the telephone number your **VTech® e-Mail Express™** dials to send and receive e-mail. On the standard service plan, your **VTech® e-Mail Express™** keeps track of two commonly used locations from which you connect to vtechworld.com. For example, if you connect from your home often, this could be designated Location 1. If you connect from a school or office often, this could be designated Location 2. Each location you connect from might require that a different number be dialed (perhaps Location 1 and 2 have different area codes or you need to dial a special number to get an outside line from Location 1, but not Location 2.) You can use Change Location to simply switch between those two locations so your **VTech® e-Mail Express™** connects easily and quickly. If you want to connect from a location other than 1 or 2, your **VTech® e-Mail Express™** can get new dial-up telephone numbers based on your current location.

If you are on the toll-free service plan, you only need to change the number that is dialed to 'get an outside line'.

Where is it?

Change Location is located in the Tools folder of your **VTech® e-Mail Express™.**

When do I use it?

You can use it whenever you need to change the number that is dialed to connect to vtechworld.com.

50

Using Change Location

If you are on the standard service plan, here's how to change your location quickly and easily:

1. Highlight "Change Location" in Tools folder by using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. You can choose to either switch between Locations 1 and 2 (by highlighting "SELECT FROM OLD NUMBERS" and pressing the 'Enter' key) or you can choose to have your **VTech® e-Mail Express™** retrieve new dial-up numbers based on your current location (by highlighting "GET NEW DIAL-UP NUMBERS" and pressing the 'Enter' key).

3. If you choose "SELECT FROM OLD NUMBERS", you can choose between Location 1 or Location 2 and change the number you need to dial to 'get an outside line'.

4. If you choose "GET NEW DIAL-UP NUMBERS", you must type in the telephone number of your current location. When your **VTech® e-Mail Express™** connects, it will retrieve the **vtechworld.com** dial-up number that is closest to your current location.

Please note that if you select "GET NEW DIAL-UP NUMBERS" you need to connect a telephone line to your **VTech® e-Mail Express™.**

If you are on the toll-free service plan, you will always dial a toll-free number to send and receive e-mail, even if you change locations. You will only need to change the number that is dialed to 'get and outside line'.

51

V-BLAST MANAGER

V-Blast Manager : What is it?

V-Blast Manager is a tool that lets you subscribe and unsubscribe to newsletters offered by VTech. V-Blasts can be daily news, weather reports, sports scores and more. Stay tuned to your Inbox for more information on V-Blast topics as they become available.

Where is it?

V-Blast Manager is located in the Tools folder of your **VTech® e-Mail Express™.**

When do I use it?

You can use it whenever you want to subscribe or unsubscribe to V-Blast newsletters.

Using V-Blast Manager

1. Highlight "V-Blast Manager" in the Tools folder using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screen you will see the names of the V-Blast newsletters.

3. Use the 'Up' and 'Down' arrow keys to highlight one of the newsletters.

4. Press the 'Space' key to switch between "subscribe" and "unsubscribe" for each newsletter. You can tell if you are subscribed to a V-Blast newsletter if there is a small check mark to the left of the V-Blast newsletter name.

52

5. Press the 'Done' key and the 'Y' key to save your changes and leave the 'V-Blast Manager'. The next time you connect to vtechworld.com, your V-Blast settings will be updated with VTech.

Please note that you can only subscribe to a maximum of three V-Blast newsletters.

CLOCK SETUP

Clock Setup: What is it?

The "Clock Setup" program tracks the date and time in which you are using the **VTech® e-Mail Express™** . The 'Clock Setup' can display the time in 12-hour or 24-hour format and can be set to automatically change the time based on Daylight Savings Time.

Where is it?

The "Clock Setup" program is located in the Tools folder of your **VTech® e-Mail Express™** .

When do I use it?

You can use the "Clock Setup" program when you need to set the time and date or change the format in which it is displayed.

Viewing the Clock

Here's how to view the "Clock Setup" on your VTech® e-Mail Express™ :

1. Highlight "Clock Setup" in the Tools folder by using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. The next screen will show you the current date and time and if the automatic Daylight Savings Time feature is turned on or not.

Changing Current Date/Time

Here's how to change current date/time on your VTech® e-Mail Express™:

1. While in the "Clock Setup" program, select "Edit Date/Time" from the action menu.

54

2. On the next screen you can change the date and time and turn 'on' or 'off' the Daylight Savings Time feature.

3. When you are finished changing the date or time, press the 'Done' key or select "Save Changes" from the action menu.

Changing the Date & Time Format

Here's how to change the date and time format on your VTech® e-Mail Express™:

1. While in the "Clock Setup" program, select "New Format" from the action menu and press the 'Enter' key.

2. On the next screen you can change the format in which the date and time are displayed.

3. When you are finished changing the "Clock Setup" settings, press the 'Done' key or select "Save Changes" from the action menu.

55

E-MAIL EXPRESS SETUP

e-Mail Express Setup: What is it?

You can use e-Mail Express Setup to check how much memory is available on your **VTech® e-Mail Express™**, edit sound settings, change passwords or adjust the contrast of the screen.

Where is it?

e-Mail Express Setup is located in the Tools folder of your **VTech® e-Mail Express™**.

When do I use it?

Use the tools in e-Mail Express Setup when you want to make changes to your **VTech® e-Mail Express™** settings.

Using e-Mail Express Setup

Here's how to open e-Mail Express Setup:

1. Highlight "e-Mail Express Setup "in the Tools folder by using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. You will see the main e-Mail Express Setup screen. Highlight the tool you wish to open and press the 'Enter' key.

3. After you have finished changing the settings of your **VTech® e-Mail Express™**, press the 'Enter' key to confirm your changes or the 'ESC' key to exit.

Checking the Available Memory

Because each e-mail message, Address Book record and Calendar event takes up a certain amount of space on your **VTech® e-Mail Express™**, Memory Manager shows you how

56

much memory, or space, has been used and how much memory is still available.

If you are near the limit of available memory, you might consider deleting some unneeded messages.

After you launch Memory Manager, you will see how much memory is available on your **VTech® e-Mail Express™**. Also you can see which program and records are using the existing memory.

FREE	377/439K
Inbox	2 Messages
Outbox	1 Messages
Drafts Folder	1 Messages

Here's how to use Memory Manager to see how much memory is available:

1. Highlight "e-Mail Express Setup" in the Tools folder by using the 'Up' and 'Down' arrow keys. Once it is highlighted, press the 'Enter' key.

2. You will see the main e-Mail Express Setup screen. Highlight "Memory Manager" and press the 'Enter' key.

3. The next screen details the amount of memory used and available on your **VTech® e-Mail Express™.**

FREE	377/439K
Inbox	2 Messages
Outbox	1 Messages
Drafts Folder	1 Messages

4. If you want to delete all the records in a folder or program, highlight that folder or program in Memory Manager and hit the 'Delete' key or choose "Delete Records" from the action menu. Select 'Yes' or 'No' to confirm the action of deleting the records.

57

Changing the Screen Setup

You can use the 'Screen Setup' tool to adjust the contrast of the screen, letter type and set the amount of time that must pass before your **VTech® e-Mail Express™** automatically shuts itself off.

Here's how you can launch the 'Screen Setup' tool:

1. Highlight "e-Mail Express Setup" in the Tools folder using the 'Up' and 'Down' arrow keys. Once it is highlighted, press the 'Enter' key.

2. You will see the main e-Mail Express Setup screen. Highlight 'Screen Setup' and press the 'Enter' key.

3. On the next screen, you will see a box that allows you to change the screen contrast, letter type and auto shut-off time.

4. After you have finished changing the settings in "Screen Setup", press the 'Enter' key to confirm your changes or the 'ESC' key to exit.

Changing the Sound Setup

You can use the "Sound Setup" tool to adjust all the settings related to the sounds made by your **VTech® e-Mail Express™.**

3. On the next screen, you can turn keyboard sounds and other sounds on or off .

```
◀ SOUND SETUP
KEY_SOUND                ◀ ON ▶
OTHER ACTION SOUND  ◀OFF▶
```

4. After you have finished changing the settings in 'Sound Setup', press the 'Enter' key to confirm your changes or the 'ESC' key to exit.

Locking the Product

You can lock your **VTech® e-Mail Express™** to prevent it from being used without your permission. If you lock your **VTech® e-Mail Express™**, you will be required to type in a password to unlock it.

Here's how you can lock or unlock your VTech® e-Mail Express™:

1. Highlight "e-Mail Express Setup" in the Tools folder using the 'Up' and 'Down' arrow keys. Once it is highlighted, press the 'Enter' key.

2. You will see the main e-Mail Express Setup screen. Highlight "Security Lock" and press the 'Enter' key.

```
SECURITY LOCK

Create Your [Unlock] Password:
***_
```

Be sure to not forget your password because you will need to type it in when you turn on your **VTech® e-Mail Express™.** If you forget your password, call VTech Customer Service to temporarily unlock the product.

Modem Setup

In Modem Setup, you can set the **VTech® e-Mail Express™** dial type to "tone" or "pulse" and specify if "call waiting" service should be temporarily disabled each time the product connects to vtechworld.com. Please consult your telephone company if you have "call waiting" but are unsure how to temporarily disable it. Here's how you can change the modem setup:

1. Highlight "Modem Setup" in e-Mail Express Setup using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. The next screen will allow you to change the dial type to "tone" or "pulse" or specify the number(s) to be dialed to disable call waiting.

ALLOW LIST MANAGER

Allow List Manager: What is it?

Your **VTech® e-Mail Express™** has a safety feature called the Allow List. The Allow List is a list of people that you can communicate with via e-mail. If a message is addressed to or from someone not on the Allow List, the message must be approved before sending or reading it. Usually, this feature is turned on and managed by a parent or guardian for a child that is using the **VTech® e-Mail Express™**.

Where is it?

Allow List Manager is located in the Tools folder of your **VTech® e-Mail Express™**.

When do I use it?

You can use it whenever you want to control who you send e-mail to or who can send e-mail to you.

In the Allow List Manager, you can turn on (enable) or turn off (disable) the Allow List.

Messages addressed to or from a person not on the Allow List will be "locked" and a small picture of a "lock" 🔒 will appear to the left of the message in the Inbox or Outbox. In order to

1) Jason finds the locked e-mail message in his Inbox and looks at the name of the Sender.

2) Jason's parent or guardian recognizes the Sender of the e-mail message and decides that it is okay for him to read the message.

3) With the e-mail message highlighted (by using the 'Up' and 'Down' Arrow keys), Jason's parent or guardian presses the 'Enter' key and types in the Allow List Password in the pop-up box.

4) On the next screen, the parent or guardian is asked if the Sender's name should be added to the Allow List so future e-mail messages from this Sender will not be locked.

5) The e-mail message is now unlocked and ready for him to read.

This process may be repeated for any other locked messages in Jason's Mail Box.

When the e-mail Allow List is turned on, you can use this tool to add to or remove names from the Allow List.

Now that you know about the Allow List, here is how you turn it on or off in the Allow List Manager:

Editing an Allow List

After the Allow List is turned on, e-mail addresses can be added to the new Allow List. The e-mail addresses added to the Allow List will be the list of people that the User can communicate with via e-mail.

Here's how you can make changes to the Allow List:

1. Highlight "Edit Allow List" in the Allow List Manager menu using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. The next screen is the list of e-mail addresses that have been added to that User's Allow List. If you have not yet added any name to the Allow List, zero e-mail addresses will be listed.

3. Press the 'Action' key and select "New" from the action menu to add a new e-mail address to the Allow List.

4. When you have finished adding e-mail addresses to the Allow List, select "Save" from the action menu or press the 'Done' key to save your changes.

Please note that a maximum of e-mail addresses per User can be added to an Allow List. Also, messages sent from VTech will not be stopped by the Allow List.

ACCOUNT MANAGER

Account Manager: What is it?

Account Manager helps you set up and maintain your vtechworld.com e-mail account.

If you want to open a vtechworld.com account on your **VTech® e-Mail Express™**, you can use Account Manager to do this. You can also modify the existing e-mail account, terminate the e-mail account or set up a forward e-mail address in Account Manager.

Where is it?

Account Manager is located in the Tools folder of your **VTech® e-Mail Express™**.

When do I use it?

Account Manager can be used whenever you need to open, terminate or modify your e-mail account.

Using Account Manager

1. Highlight "Account Manager" in the Tools folder by using the 'Up' and 'Down' arrow keys and press the 'Enter' key.
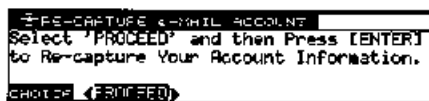

2. You will see the main Account Manager screen. Highlight

1. Highlight "Open e-Mail Account" in Account Manager using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. The Account Signup Wizard will be launched to setup a new vtechworld.com account with vtechworld.com. You are required to type in the appropriate information at each of the blanks on the screen.

3. When you have reached the bottom of an Account Signup Wizard screen, press the 'Enter' key to advance to the next screen.

4. When all of the information has been typed in, press the 'Enter' key to save your information. Your **VTech® e-Mail Express™** will automatically connect to vtechworld.com and process the request to open an account. Please make sure you have a telephone cord connected to your **VTech® e-Mail Express™**.

5. While you are connected, you will be asked to select a

Please be sure to pay attention to the progress of your connection with vtechworld.com. A message may appear on the screen that requires you to respond.

Editing an e-Mail Account

On occasion, you might need to change some of your account information. You can use the 'Edit e-Mail Account' tool to change your account information:

1. Highlight "Edit e-Mail Account" in Account Manager using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screens you can edit some of the account information.

3. After typing in all of the required information, press the 'Enter' key. The **VTech® e-Mail Express™** will connect to vtechworld.com and complete your request to edit an e-mail account.

Please be sure to pay attention to the progress of your connection with vtechworld.com. A message may appear on

2. Once you confirm to terminate your e-mail, the **VTech® e-Mail Express™** will connect to vtechworld.com and complete your request.

Please be sure to pay attention to the progress of your connection with vtechworld.com. A message may appear on the screen that requires you to respond.

Warning: Please note that this action will terminate your vtechworld.com account and you will not be able to send and receive e-mail with vtechworld.com.

Re-Starting an e-Mail Account

If for some reason your vtechworld.com account is suspended (due to a billing problem, etc.), you can restart it with this tool.

Here's how you can re-start a suspended vtechworld.com account:

1. Highlight "Re-start e-Mail Account" in Account Manager using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. After typing in all of the required information, press the 'Enter' key. The **VTech® e-Mail Express™** will connect to vtechworld.com and complete your request to restart the

Re-Capturing Your e-Mail Account

If for some reason your account information (User Name, password, Allow List) is deleted from your **VTech® e-Mail Express™** due to a power failure or accidental 'reset', you can connect to vtechworld.com and retrieve the most recent information. Other features, such as the clock and screen setup will be reset to their original settings and will need to be adjusted by you.

Here's how to re-capture your vtechworld.com account:

1. Highlight "Re-capture e-Mail Account" in Account Manager using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. The next screen will ask you to confirm that the vtechworld.com account should be re-captured, choose 'PROCEED' to go on. Type in your User Name and password and press the 'Enter' key.

```
RE-CAPTURE e-MAIL ACCOUNT
Select 'PROCEED' and then Press [ENTER]
to Re-capture Your Account Information.

CHOICE  (PROCEED)
```

3. After you confirm to re-capture the account, the

Setting up a Forwarding e-Mail Address

If you wish to temporarily forward all e-mail messages to another e-mail address you can do so by following these steps :

1. Highlight "Set Up Forward e-Mail" in Account Manager using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screen, a forwarding e-mail address must be typed.

3. After typing in all of the required information, press the 'Enter' key.

Viewing Dial-up Numbers

The Dial-up Number is the telephone number that is dialed by your **VTech® e-Mail Express™** to connect to **vtechworld.com**. It is likely that View Dial-up Numbers will only be used if you have placed a call to VTech® Customer Service and the customer service representative has asked you to manually change the telephone numbers shown here.

You can view or change the Dial-up Numbers by taking the following steps:

1. Highlight "View Dial-up Numbers" in Account Manager

3. After typing in all of the required information, press the 'Enter' key.

MY E-MAIL PROFILE

My e-Mail Profile: What is it?

'My e-Mail Profile' is a profile of yourself that contains your full name, your e-mail address and e-mail 'signature'. An e-mail 'signature' can be a phrase or design that you can quickly insert into an e-mail message.

Where is it?

'My e-Mail Profile' is located in the Tools folder of your **VTech® e-Mail Express™**.

When do I use it?

You can use "My e-Mail Profile" when you want to create or edit your personal profile.

Using My e-Mail Profile

1. Highlight "My e-Mail Profile" in the Tools folder by using the 'Up' and 'Down' arrow keys and press the 'Enter' key.

2. On the next screen, you can type in your name and set up "My e-Mail Profile" to automatically insert your signature at the end of e-mail messages.

MY e-MAIL PROFILE 1.2

4. When you are finished creating or editing "My e-Mail Profile", press the 'Done' key to save your changes.
