IMPORTANT SAFETY INSTRUCTIONS

CAUTION: Do not install the baby unit at a height above 2 meters. 4. This product is not a substitute for adult supervision of the

infant. Supervising the infant is the parent's or caregiver's responsibility. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This

product is intended to assist you in supervising your baby Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement

6. CAUTION: Use only the battery provided. There may be a

risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low extreme temperature and low air pressure at high altitude during use, storage or transportation. Disposal of battery into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of as Rattery subjected to extremely low air pressure may

of gas. Battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or

Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product.

Baby unit output: 5V DC 1A

se of used battery according to the information in

The applied nameplate is located at the bottom of the When using your equipment, basic safety precautions should always be followed to reduce the risk of fire,

Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product. 18. To reduce the risk of electric shock, do not electric shock and injury, including the following: L. Follow all warnings and instructions marked on the Adult setup is required

disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used. You should test the sound reception every time you turn on the units or move one of the components.

 Periodically examine all components for damage. There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors, cordless telephones, etc. To protect your privacy, make sure the product has never been used before purchase, reset the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if you will not use it for

some time.

Children should be supervised to ensure that they do not play with the product.

The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

Use and store the product at a temperature between 32°F and 104°F. Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a

eating source. Batteries should not be exposed to excessive heat such

Warning—Strangulation Hazard— Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3 ft (0.9m) away). Do

not remove this tag.

Never place the baby unit(s) inside the baby's crib or playpen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket.

Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

Precautions for users of implanted cardiac pacemakers Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians

Pacemaker patients

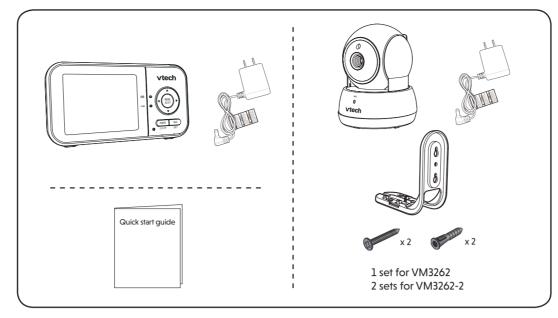

Should keep wireless devices at least six inches from the Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence

WHAT'S IN THE BOX

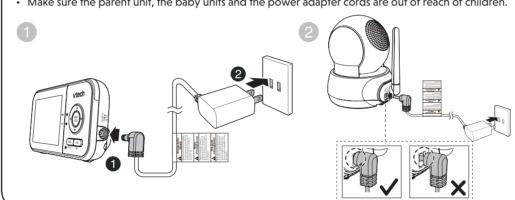

CONNECT THE BABY MONITOR

■ NOTES

- The rechargeable battery in the parent unit is built-in. Use only the power adapters supplied with this product
- Make sure the baby monitor is not connected to a switch-controlled electric outlet.
- Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.

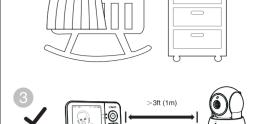

Make sure the parent unit, the baby units and the power adapter cords are out of reach of children.

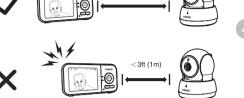

POWER ON OR OFF THE BABY MONITOR Slide the **ON/OFF** switch to power on or off your baby unit. Press and hold **POWER** to power on or off your parent unit. POWER POWER Press and hold Press and hold

POSITIONING THE BABY MONITOR

SOUND SENSITIVITY AND SOUND ACTIVATION

Adjust the sound sensitivity of the baby unit

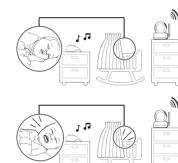

You can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The VOX sensitivity level is preset to the highest level.

OX :nsitivity vel	Highest	High	Medium	Low	Lowest
ESCRIPTION	The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.	The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.	The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.

Sound activated screen

When sound activation is on, the parent unit screen stays off to save power when the baby unit detects no sound. Once the baby unit detects sounds that are louder than the chosen sound sensitivity level, the parent unit screen turns on automatically. It will then turn off again after 50 seconds of no sound detection

The dim mode is to help you save the parent unit power. Your parent unit display will dim automatically after 10 minutes of inactivity, in which there is neither key pressed nor alert

DIM MODE

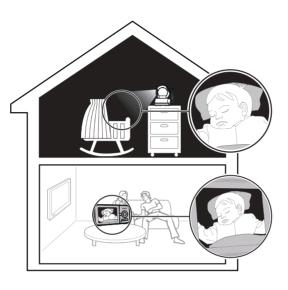

■ Note

· While the screen is dimmed, any keypress or alert message will trigger the screen to return to the preset brightness level. After 10 minutes of inactivity, it will resume to dim mode.

NIGHT VISION

The baby unit has infrared LEDs that allow you to see your baby clearly at night or in a dark room. When the baby unit being viewed detects low light levels, the infrared LEDs are switched on automatically. The images from the baby unit are in black and white, and 🕽 ppears on the screen.

NOTES

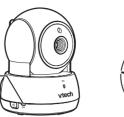

- It is normal to see a short white glare on your parent unit screen as the baby unit is When the infrared LEDs are on, the images are in black and white. This is

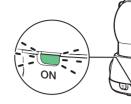

Depending on the surroundings and other interfering factors, like lighting, objects, colors and backgrounds, the display resolution may vary. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry

FOR VM3256-2 ONLY

Status check - Two baby units

If you are viewing baby unit 21, the POWER LED light of baby unit 11 turns on. As baby unit **2** is not being viewed, its **POWER** LED light flashes.

- If you power on only one baby unit, your parent unit may display $\gamma_{\!\!\!\!\Theta}$ and the LINK LED light will flash.

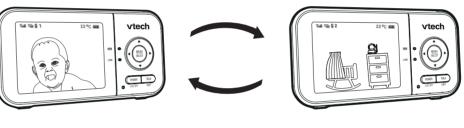

Change different views - Patrol

- 1. Press **MENU** when the parent unit is idle
- 2. Press ◀ or ▶ to choose ☐, then press **SELECT** or ▲.
- 3. Press ∇ or \triangle to choose \bigcirc , then press **SELECT** to confirm your selection.

Change different views - Single-cam

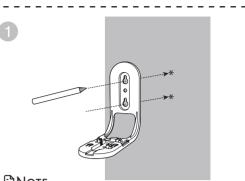

- 1. Press **MENU** when the parent unit is idle. Press ◀ or ▶ to choose □, then press SELECT or ▲.
- 3. Press lacktriangledown or lacktriangledown to choose between \lacktriangledown , then press **SELECT** to confirm the camera unit you would like to view.

MOUNT THE BABY UNIT ON DRY WALL (OPTIONAL)

Notes

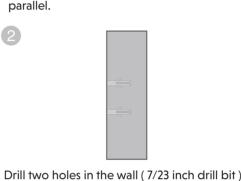

- · Check for reception strength and camera angle before drilling the holes.
- The types of screws and anchors you need depend on the composition of the wall. You may need to purchase the screws and anchors separately to mount vour camera units.

■Note

 Check for reception strength and camera angle before drilling the holes. Place the wall mount bracket on a wall

and then use a pencil to mark two holes in parallel.

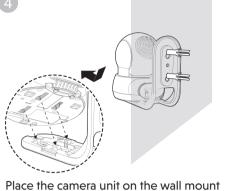

If you drill the holes into a stud, go to step 3. If you drill the holes into an object other than

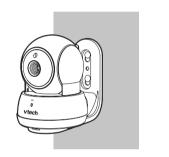

a stud, insert the wall anchors into the holes. Tap gently on the ends with a hammer until the wall anchors are flush with the wall.

Align the wall mount bracket and screws with the holes in the wall as shown. Tighten the screw in the middle hole first, so that the wall mount bracket position is fixed. You can tighten the other screw in the top hole.

bracket, and then slide it forward until it locks into place. Connect the power adapter to the camera unit and a power supply not controlled by a wall switch.

Q_∞ Frequently asked questions

the date of purchase or receipt; and Provide your name, complete and correct mailing address, and telephone number.

identifying the Product purchased (Product model) and

This warranty is the complete and exclusive agreement between you and VTech. It supersedes all other written or ral communications related to this Product. VTech provide no other warranties for this Product. The warranty exclusively describes all of VTech's responsibilities regarding the Product. There are no other express warranties. No one is authorized to make modifications to this limited warranty and you should not rely on any such modification. State/Provincial Law Rights: This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state or province to province.

Limitations: Implied warranties, including those of fitness for a particular purpose and merchantability (an unwritten warranty that the Product is fit for ordinary use) are limited to one year from the date of purchase. Some states/ provinces do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you In no event shall VTech be liable for any indirect, special, incidental, consequential, or similar damages (including, but not limited to lost profits or revenue, inability to use the Product or other associated equipment, the cost of substitute equipment, and claims by third parties) resulting from the use of this Product. Some states/provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Please retain your original sales receipt as proof
