

Important Safety Information

Batteries

The Steam Controller can be used with disposable AA batteries (included) or rechargeable AA batteries (not included). Improper use of batteries may result in leakage of corrosive and toxic battery fluid as well as overheating, including risk of fire and explosion.

- Keep batteries out of reach of children.
- Do not expose batteries to heat or fire or damage the battery enclosure.
- Only use alkaline type AA (LR6) batteries.
- Do not mix batteries with uneven remaining charge.
- Remove batteries if depleted and when storing the device for an extended period of time.
- In case of battery leakage, remove all batteries and avoid contact with skin or clothes. Flush any exposed skin immediately under running water.

Radio Frequency Emissions

This device emits radio frequency (RF) signals. While it has been thoroughly tested for non-interference with other devices, do not operate around critical electronic equipment (e.g. in hospitals) and remove batteries completely before transport by airplane.

Exposure to Heat and Humidity

You should keep your Steam Controller dry and not use it where it could get wet. You should not expose your Steam Controller to extreme temperatures (operating temperature range should remain between 10 °C and 35 °C (50 °F and 95 °F)). If you move your Steam Controller from a cold location to a warm one, moisture may condense and cause the Steam Controller to cease operating properly— in that case, you may need to wait several hours before it can operate properly.

Choking hazard

This device contains small parts which may be a choking hazard to children under 3. Keep out of reach of children.

Musculoskeletal disorder

As with many repetitive physical activities, extended use of the Steam Controller may cause occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. However, if you experience persistent or recurring discomfort, pain, throbbing, tingling, numbness, or stiffness, DO NOT IGNORE THESE WARNING SIGNS. PROMPTLY SEE A QUALIFIED HEALTH PROFESSIONAL. Symptoms such as these can be associated with permanent and serious musculoskeletal disorders (MSDs) such as carpal tunnel syndrome, tendonitis, tenosynovitis, vibration syndromes, and other conditions. To reduce the risk of

MSD, operate the Steam Controller in a comfortable posture, keep your hands and other body parts relaxed, and take breaks.

Photosensitive seizures

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a computer screen, or certain types of computer gameplay, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, have an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video or computer game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions— IMMEDIATELY discontinue use and consult your physician before resuming play.

Regulatory Information

UNITED STATES

Federal Communications Commission (FCC)

Steam Controller FCC ID: 2AES41001

Wireless Dongle FCC ID: 2AES41002

Tested to comply with FCC (Federal Communication Commission) Standards. For home and office use. Not intended for use in machinery, medical, or industrial applications. This device is for use with NRTL-listed (UL, CSA, ETL etc.) and/or IEC/EN 60950 compliant (CE marked) IT equipment. No serviceable parts included.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna

-Increase the distance between the equipment and the receiver.

-Connect the equipment to outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

FCC Warning: The FCC requires that you be notified that any changes or modifications to this device not expressly approved by the manufacturer could void the user's authority to operate the equipment.

CANADA

Industry Canada (IC)

Steam Controller IC: 20207-1001

Wireless Dongle IC: 20207-1002

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interferences, and (2) this device must accept any interferences, including interferences that may cause undesired operation of the device.

Cet appareil est conforme avec Industrie Canada exempts de licence standard RSS (s). L'utilisation de ce dispositif est autorisée seulement aux conditions suivantes : (1) il ne doit pas produire de brouillage et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

Complies with the Canadian ICES-003 Class B specifications.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Complies with the Canadian ICES-003 Class B specifications.

EUROPEAN ECONOMIC AREA

This device bears the CE mark in accordance with Directive 1999/5/CE. Hereby, Valve Corporation declares that this Steam Controller is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. This equipment may be operated in all European Economic Area (EEA) countries.

The full declaration of conformity can be found at [\(INSERT URL TO FULL DECLARATION OF CONFORMITY\)](#).

Disposal of Waste Batteries and Electrical and Electronic Equipment

Battery chemistry: Alkaline

Battery removal instructions: See the Quick Start Guide This symbol on the product(s) and/or accompanying documents means that used electrical and electronic products should not be mixed with general household waste. This symbol is only valid in the European Union. For proper treatment, recovery, and recycling, please take this product(s) to designated collection points where it will be accepted free of charge. Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling. Please contact your local authority or your supplier for further details of your nearest designated collection point. Penalties may be applicable for incorrect disposal of this waste, in accordance with your national legislation.

Legal Notices

Software License

Many functions of the Steam Controller require the use of the Steam Client software (<http://store.steampowered.com/about/>). Use of the Steam Client is subject to the Steam Subscriber Agreement: http://store.steampowered.com/subscriber_agreement/, including the contained limitation of warranties and liabilities.

Export Control

The Steam Client software is subject to certain restrictions under U.S. Export Administration Regulations, and may not be exported or re-exported to U.S. embargoed destinations or to persons or entities prohibited by the U.S. Export Administration Regulations.

Internet Connection

An internet connection is required to access and use the Steam Client software. You are responsible for any Internet service fees.
