

VIBRATION PAD

Part & Function

Setup

Vibrator

This vibration pad only works with the Multi-Alert system receiver. When using the vibration pad, move the function switch to the on position.

FCC Statement:

This device complies with part 18 of the FCC rules.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

Note: Modifications to this product will void the user's authority to operate this equipment.
