Separate Power Sources

Some peripherals require a separate power source. Before connecting a check reader or similar device, turn *off* power to the terminal.

Peripherals

Before connecting any peripheral device, turn *off* power to the terminal. Turn on power only *after* you are finished connecting the peripheral device(s). For complete information about peripheral installation and use, please refer to the user documentation supplied with those devices.

Disconnecting Power

Disconnecting power during a transaction may cause transaction data files that are *not yet* stored in terminal memory to be lost.

Surge Protectors

To protect your terminal against possible damage caused by lightning strikes and electrical surges, you may want to install a power surge protector.

Location – Electrical Considerations

CAUTION: Due to risk of electrical shock or terminal damage, do not use the terminal near water, including a bathtub, wash bowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool. Also, avoid using this product during electrical storms.

Avoid locations near electrical appliances or other devices that cause excessive voltage fluctuations or emit electrical noise (for example, air conditioners, neon signs, high-frequency or magnetic security devices, or electric motors).

Equipment

Damage

Carefully inspect the shipping carton and its contents for any damage. If the terminal or any product component appears damaged or tampered with, immediately notify the shipping company and your VeriFone distributor or service provider.

CAUTION: Do not use a terminal that has been damaged or tampered with.

Repairs

Unless otherwise instructed in this document, do not, *under any circumstances*, attempt any service, adjustments, or repairs on this equipment. Instead, contact your local VeriFone distributor or service provider for assistance. Failure to comply may invalidate the product warranty.

Location – Environmental Considerations

Do not plug the power pack into an outdoor outlet or operate the terminal outdoors. It is not waterproof or dustproof, and is for indoor use only. Any damage to the unit from exposure to rain or dust may void your warranty.

Do not use the terminal where there is high heat, dust, humidity, moisture, or caustic chemicals or oils. Keep the terminal away from direct sunlight and anything that radiates heat, such as a stove or a motor.

Cleaners and Solvents

Never use thinner, trichloroethylene, or ketone-based solvents to clean the terminal — they may deteriorate plastic or rubber parts. Do not spray cleaners or other solutions directly onto the keypad or display. For best results, use a VeriFone Cleaning Kit or a clean cloth dampened with water and mild soap. To remove stubborn stains, use alcohol or an alcohol-based cleaner.

Location – Ease of Use

Select a location for your terminal that contributes to its ease of use:

- A location convenient for both merchant and cardholder.
- A flat support surface, such as a countertop or table.
- A location near a power outlet and a telephone/modem line connection.

WARNING! Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Omni 3600 Certifications and Regulations

VeriFone Part Number: 22475 Revision E

Omni 3600 Certifications and Regulations

FCC Compliance

Manufacturer: VeriFone, Inc.

Model: Omni 3600

FCC Part 15 Class B

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

SAR Labeling

Mobitex

USA

To comply with the FCC RF exposure requirements, bystanders and parts of the users body other than the extremities must be at least 15.0mm away from the device.

CDMA

USA

SAR compliance for body worn operating configurations is limited to the specific belt clips / holsters / accessories that have no metallic component in the assembly. The highest reported SAR values for Omni 3600C under the FCC ID B32OMNI3600C are: PMS modes (Part 22) – Body-worn 0.0056mW/g. The highest reported SAR values for Omni 3600D under the FCC ID B32OMNI3600D are: PMS modes (Part 22) – Body-worn 0.309mW/g, PCS mode (Part 24) - Body-worn: 0.232mW/g.

Brazil

""O terminal Omni 3600 atende aos limites da Taxa de Absorção Específica referente à exposição a campos eléctricos, magnéticos e electromagnéticos de radiofrequências adoptados pela Anatel.""

GSM/GPRS

USA

SAR compliance for body worn operating configurations is limited to the specific belt clips / holsters / accessories that have no metallic component in the assembly. The highest reported SAR values under this FCC ID are: PMS modes (Part 22) – Body-worn 0.245mW/g, PCS mode (Part 24) - Body-worn: 0.218mW/g.

Australia Required Warning Statement

Please switch off and do not operate the equipment when in an area with a potentially explosive atmosphere, such as refueling points, fuel depots or storage areas, chemical plants, and blasting operations.

Electrical

LI-ion Battery Module—Rechargeable Battery Unit Caution

Do not:

- disassemble, crush, puncture, or incinerate in fire.
- short circuit contacts.
- expose to temperatures exceeding 140°F (60°C).

Power Packs

Before you connect the terminal power pack to an electrical outlet, check that the *on/off* power switch on the terminal is *off*. If the terminal does not have an *on/off* switch, check that the power cable connector is *removed* from the terminal's power port.

or

When connecting the terminal to a power pack, *always* connect the three-pronged plug of the power pack to an electrical wall outlet *first*. Then connect the power cable to the terminal's power port.

AC Adapter

The AC adapter is designed to ensure your personal safety and to be compatible with this equipment. Please follow these guidelines:

- Do not use the adapter in a high moisture environment. Never touch the adapter when your hands or feet are wet.
- Allow adequate ventilation around the adapter. Avoid locations with restricted airflow.
- Connect the adapter to a proper power source. The voltage and grounding requirements are found on the product case and/or packaging.
- Do not use the adapter if the cord becomes damaged.
- Do not attempt to service the adapter. There are no serviceable parts inside. Replace the unit if it is damaged or exposed to excess moisture.

Omni 3600 GPRS Declaration of Conformity

DECLARATION OF CONFORMITY

according to ISO/IEC Guide 22 and EN 45014

CE 0682

Manufacturer's Name: VeriFone Inc.
Manufacturer's Address: VeriFone
3755 Atherton Rd.
Rocklin, CA 95765
95765-3701, USA

declares, that the product

Product Name: Omni 3600G
Model Number: P096-100-06
Product Options: All

conforms to the following Product Specifications:

Safety:
IEC 60950:1991+A1+A2+A3+A4 / EN60950:1992+A1+A2+A3+A4+A11
EC recommendation 1999/519 EC

EMC:
EN 301 489 – 1, v1.2.1
EN 301 489 – 7, v1.1.1
CISPR 22:1997 / EN 55022:1998
CISPR 24:1997 / EN 55024:1998
IEC 61000-3-2:1995 / EN 61000-3-2:1995+A14
IEC 61000-3-3:1994 / EN 61000-3-3:1995

RF Spectrum Efficiency:
EN 301 511, v7.0.1

Supplementary Information:

The product herewith complies with the requirements of the Low Voltage Directive 73/23/EEC, the EMC Directive 89/336/EEC, R&TTE Directive 1999/5/EC (Annex II) and carries the CE-marking accordingly.
