Installation

1. Fix the product on the transparent holder pothook or fix the suction cup on the holder.

2. Stick the product fixed with pothook onto the windshield.

3. Ensure this product is clamped tightly onto the windshield.

Turning Your Bluetooth Car Kit On And Off

Move the ON/OFF switch to the left. The LCM screen will be bright and display "Bluetooth", meantime you will hear a start-up tone

Charging the Bluetooth Car Kit

The Bluetooth car kit is powered by a rechargeable, replaceable Li-ion battery. A new Li-ion battery's optimum performance is only achieved after two or three complete charging and support 5 hours talking time

In the standby and a call state, if the hands-free kit makes a sound of tooting, it indicates that the device needs charging, please use the car charger to charge it. The solar panel will charge for the device automatically if there is sunshine. The red LED indicator will be on while charging. Insert one end of car kit charger into the car kit USB port.

Insert another end of car kit charger into the 12VDC adaptor of the car cigarette lighter, or connect the car kit USB port with Computer USB port via USB cable. Red LED light is on all the time, which means normal charging status. Red LED is off means full charging

Operation

Getting Started

Two Bluetooth enabled cell phone pairing with one handsfree car kit

One Bluetooth device can connect with two cell phones , any one of the two cell phones can dial and answer call after successful connection .

While one cell phone is answering or dialing calls , the other one has call to answer , press “ + ” button for 2~3 seconds , the LCM will display the model name of the other cell phone and then switch the call to this cell phone automatically . Press “ + ” button to swtich different calls while you have to answer two calls , the LCM will display with model name of the cell phone which is answering call .

Care & Maintenance

- Turn your Bluetooth Car Kit off to extend the battery 's life.
 - Do not expose your device to liquid, moisture and humidity as it is not waterproof.
 - Do not use abrasive cleaners or solvents to clean the device.
 - Do not expose the device to extremely high or low temperatures.
 - Do not dispose the device, or its battery pack in fire as it will result in an explosion.
 - Do not disassemble the device as it does not contain serviceable components.
- If you do not use the Bluetooth Car Kit for long period, store it in a cool, dry place, free from extreme temperatures and dust or dirt.

Safety information

1. Check local handsfree laws on using cell phone and Bluetooth Car Kit while driving.
2. If you use the Bluetooth Car Kit while driving, keep concentrating on the wheel, keep your eyes on the road.
3. The Bluetooth Car Kit is not a toy, please keep children away from it . Small parts may be a chocking hazard.
4. Observe all signs that require an electronic device or RF Radio to be switched OFF in designated areas. These could include hospitals, blasting areas and potential explosive environments.
5. Your Bluetooth Car Kit must never be mounted or stored by airbag deployment area, as serious injury may result when an airbag deploys.

Troubleshooting

If you are unable to connect your Bluetooth Car Kit to the cell phone, please check and try the following:

- Ensure the Bluetooth Car Kit is power ON.
- Ensure both your Bluetooth Car Kit and the cell phone have enough battery power to pair successfully.
- Ensure the Bluetooth Car Kit is paired with your cell phone (Please refer to your cell phone 's user guide for specific instructions for pairing).
- Ensure the device is within a maximum of 10 meters of the mobile phone and there is no obstructions, such as walls or other electronic devices.

If pairing operations fail:

- a. Delete the item from the paired list on your cell phone.
- b. Reset both the cell phone and the Bluetooth Car Kit device by powering them off and back on.
- c. Re-pair the two devices.
- d. Turn off the cell phone and separate the battery from it for approximately 5 seconds .

Repeat the pairing process.

Note: In some instances, this action clears up any potential bugs built up in the cell phone software that can hinder proper pairing.

If you have connected the Bluetooth Car Kit to your cell phone, but do not hear anything.

1. Ensure the volume control is on.
2. Check the radio signal strength indicator in your mobile phone, as you may be outside the service area.
3. Your current location may not provide good call quality. Move to a location where radio signal strength is greater and less interference.
4. Magnetized objects such as health necklaces placed near the Bluetooth Car Kit or your mobile phone may terminate the call. Keep away from such objects.

Irregular Caller ID display:

The Bluetooth device support Max 12 digits incoming call display, if the number is more than 12 digits , then just display the digits after the twelfth number! . Some telecom service department do not provide incoming call display, especially international call, in this case, the phone number can not display on our device.

Note: Please note that it is possible that the Bluetooth Car Kit buttons might not operate according to the instructions this user guide if your cell phone has an unusual wireless interface. In this case, please reset both the Bluetooth car kit and cell phone. Your Bluetooth Car Kit is compliant with, and adopts to the Bluetooth specification 2.0.

Compatibility between the Bluetooth Car Kit and other Bluetooth enabled devices are not uaranteed. Compatibility depends on the devices used. For specific Information on the compatibility between the Bluetooth Car Kit with other Bluetooth enable products, please check with manufacturer.

Warranty

This product is designed and manufactured to provide a high level of trouble-free performance . The technology warrants, to the original purchaser, that its products are free from defects in material and workmanship for 1 year from the date of original purchase, as part of our commitment to product excellence, we and/or our affiliates routinely improves the designs, material or production methods of its existing product. Because it is impractical to publicize. All changes in every product, we reserve the right to make such changes without notice. If during the 1 year warranty period your new product is found to be defective, the technology will replace the product, without charge for parts of labour subject to the following conditions:

1. All repairs must be performed by the technology.
