Mute (active call or voice app)	Mutes/unmutes microphone

SRX-SL Important Information

This *Important Information* section contains safety, regulatory, and warranty information. Find other Vocollect SRX-SL documentation at: www.honeywellaidc.com

Safety and Handling

Honeywell Vocollect Solutions devices and wireless headsets are designed to be compliant with the rules and regulations in the locations into which they are sold and are labeled as required.

Caution: Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Attention: Les changements ou modifications non expressément approuvés par la fabrication pourraient annuler l'autorité de l'utilisateur à utiliser l'équipement.

Battery Safety Information

CAUTION: Risk of explosion if battery is replaced by an incorrect type. Replace a battery only with another battery that has been authorized by the manufacture for the product you are using. Use of an unqualified battery may present a risk of fire, explosion, leakage, or other hazard.

In the event of a battery leak, do not allow the liquid to come in contact with skin or eyes. If contact is made, flush the affected area with large amounts of water and seek immediate emergency medical advice and care. If at any time you witness a battery starting to distend or swell, smoke, or become hot to the touch, discontinue the charging process immediately and disconnect the battery and charger. Observe it from a safe place, preferably outside of any building or vehicle for approximately 15 minutes.

The battery should be disposed of by a qualified recycler of hazardous materials handler. Do not incinerate the battery or dispose of the battery with general waste materials.

ATTENTION : Risque d'explosion si la batterie est remplacée par un type incorrect. Remplacer une batterie uniquement avec une autre batterie qui a été autorisé par la fabrication du produit que vous utilisez. L'utilisation d'une batterie non peut présenter un risque d'incendie, d'explosion, de fuite ou d'autres dangers

Dans le cas d'une fuite de la batterie, ne laissez pas le liquide entrer en contact avec la peau ou les yeux. En cas de contact, rincer la zone touchée avec de grandes quantités d'eau et consulter un médecin d'urgence immédiate et de soins. Si à tout moment vous êtes témoin d'une batterie de démarrage pour distendre ou de la houle, la fumée, ou devenir chaud au toucher, interrompre le processus de charge immédiatement et débrancher la batterie et le chargeur. Observez-le à partir d'un endroit sûr, de préférence à l'extérieur de tout bâtiment ou d'un véhicule pendant environ 15 minutes.

La batterie doit être éliminée par un recycleur qualifié de traitement de matières dangereuses. Ne brûlez pas la batterie ou de disposer de la batterie avec des matériaux aux déchets.

RF Exposure Statement

Warning: Vocollect Wireless products comply with International Commission on Non-Ionizing Radiation Protection (ICNIRP), IEEE C95.1, Federal Communications Commission Office of Engineering and Technology (OET) Bulletin 65, Canada RSS-102, and European Committee for Electrotechnical Standardization (CENELEC) limits for exposure to radio frequency (RF) radiation.

Caution: Exposure to Radio Frequency Radiation.

- The SRX-SL headset contains an internal low-power radio.
- The radiated output power of Vocollect Solution headsets is far below the FCC/IC/EU radio frequency exposure limits. Nevertheless, this headset shall be used in such a manner that the potential for human contact with the radio antenna during normal operation is minimized. This headset should not be used if the case is open or if the internal antenna is exposed. When not in use, this headset should be powered off. In addition, the SRX-SL headset should be worn in accordance with the instructions for this headset.

Avertissement: Exposition aux radiations de fréquences radio.

- Le casque sans fil SRX-SL suivants contiennent chacun une radio de faible puissance interne.
- La puissance de rayonnement des casques de Vocollect est bien inférieure aux limites d'exposition aux fréquences radio de la FCC/IC/EU. Néanmoins, les casques Vocollect doivent être utilisés de telle sorte que le potentiel pour le contact humain avec l'antenne de la radio pendant le fonctionnement normal est réduit au minimum. L'appareil ne doit pas être utilisé si le boîtier est ouvert ou si l'antenne interne est exposée. Lorsqu'il n'est pas utilisé, les dispositifs de Vocollect doivent être éteints. En outre, l'appareil doit être porté en conformité avec les instructions pour cet appareil.

Radio

The SRX-SL product, model HBT1100, FCC ID: MQO-HBT1100, IC: 2570A-HBT1100, contains the following radio device:

- Radio Manufacturer and Manufacture P/N: CSR BlueCore 5 MPN: CSR8675C-IBBH-R

Certification and Compliance

Statement of Agency Compliance

Honeywell Vocollect Solutions devices and wireless headsets are designed to be compliant with the rules and regulations in the locations into which they are sold and are labeled as required. Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Dispositifs Solutions Honeywell Vocollect et casques sans fil sont conçus pour être conformes aux règles et réglementations dans les lieux où ils sont vendus et sont étiquetés selon les besoins. Federal Communications Commission Compliance

FCC Class B Compliance Statement

Part 15 of the Federal Communications Commission (FCC) Rules

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Canadian Compliance Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

European Community Compliance Statement

This device complies with the RF Exposure Requirement 1999/519/EC, Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0-300 GHz). This wireless device complies with the R&TTE Directive.

This product complies to 2014/35/EU Low Voltage Directive when supplied with the recommended power supply.

This device is a 2.5 GHz wireless device intended for light industrial use in all EU and EFTA member states.

The equipment is intended for use throughout the European Community; PAN European Frequency Range: 2.400-2.4835 GHz.

Operating Frequency Ranges:

- Bluetooth 4.1 Frequency: 2.4 GHz

Honeywell shall not be liable for the use of this product with equipment that is not CE marked and does not comply with the Low Voltage Directive.

Environmental Information

Declaration of Conformity: RoHS

Directive 2011/65/EU of the European Parliament and Council of 8 June 2011

Restriction of Hazardous Substances (RoHS)

Products Manufactured by Vocollect™ - Honeywell Voice Solutions

All Vocollect manufactured products shipped by Vocollect as of 1 January 2012 to destinations where the DIRECTIVE 2011/65/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 8 June 2011 (RoHS 2) applies are compliant with this directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

The parts do not exceed the maximum concentrations by weight in homogeneous materials for:

- 0.1% lead (Pb)
- 0.1% Hexavalent chromium (Cr6+)
- 0.1% polybrominated biphenyl (PBB)
- 0.1% polybrominated diphenyl ether (PBDE)
- 0.01% cadmium (Cd)

or qualify for an exemption to the above limits as defined in the Annex of the RoHS Directive.

Third Party products sold by Honeywell

Honeywell has obtained verification from all suppliers of all third party products that versions of those products shipped by Vocollect as of 1 January 2012 to destinations where the DIRECTIVE 2011/65/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 8 June 2011 (RoHS 2) applies are compliant with this directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment.
