Client: Vocollect, Inc.
Model: SRX Wireless Headset
Standards: FCC 15.247 & RSS-210
FCC ID: MQOSRX-10000
Report #: 2006025

Appendix I: Manual

Please refer to the following pages.

Vocollect® SRX Wireless Bluetooth Headset Regulatory and Compliance

Statement of Agency Compliance

Vocollect wireless headsets are designed to be compliant with the rules and regulations in the locations into which they are sold and are labeled as required. Vocollect headsets are type approved and do not require the user to obtain license or authorization before using them. Changes or modifications not expressly approved by Vocollect, Inc. could void the user's authority to operate the equipment.

Regulatory and Safety Approvals for the SRX-1 Wireless Bluetooth Headset

This product has been tested to the following standards:

	Standard
European Union/ Manufacturers Declaration of Conformity. R&TTE Directive 1999/5/EC	EN 60950-1: Information Technology Equipment - Safety EN 300 328: Technology requirements for spread-spectrum equipment EN 301-489-1/17: EMC requirements for spread-spectrum radio equipment
United States/Federal Communications Commission	FCC Part 15 Subpart B, Class B: Code of Federal Regulations, Title 47 Telecommunication Part 15-Radio Frequency Devices FCC Part 15.247: Intentional Radiator, Operation within the bands 902-928 MHz, 2400-2483.5 MHz, 5725-5850 MHz
Canada/Industry Canada	ICES-003: Industry Canada Interference-Causing Equipment RSS-210: Low-power License-exempt Radio communication Devices (All Frequency Bands) Category I Equipment

FCC Class B Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CE Marking & European Compliance

Products intended for sale within the European Union are marked with the CEMark, which indicates compliance to applicable Directives and European Normes (EN) as follows. Amendments to these Directives or ENs are included.

	Important Notice: This device is a 2.4 to 2.48 GHz RF device intended for office and light industrial use in all EU and EFTA member states.
---	---

Applicable Directives

- Electromagnetic Compatibility Directive 89/336/EEC
- EN 55022: 1998 Class B
- EN 55025: 1998

Europe – EU Declaration of Conformity

This device complies with the essential requirements of the R&TTE Directive 1999/5/EC. The following test methods have been applied in order to prove presumption of compliance with the R&TTE Directive 1999/5/EC:

- EN 60950: 2000 - Safety of Information Technology Equipment
- EN 300 328-2 V1.2.1 (2001-12) - Technical requirements for spread-spectrum radio equipment
- EN 301 489-17 V1.2.1 (2002-08) - EMC requirements for spread-spectrum radio equipment.

This device is a 2.4 GHz wireless Bluetooth transceiver, intended for indoor home and office use in all EU and EFTA member states.

Declaration of Conformity

Canadian Compliance

This Class B digital apparatus complies with Canadian ICES-003. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Regulatory Approvals for Bluetooth Radio Devices

RF devices are designed to comply with the most current applicable standards on safe levels of RF energy developed by the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute Communications Commission (FCC).

CAUTION: Exposure to Radio Frequency Radiation.

The Talkman SRX headset contains an internal low-power radio. The radiated output power of the radio is far below the FCC radio frequency exposure limits. Nevertheless, the Talkman SRX headset shall be used in such a manner that the potential for human contact with the radio antenna during normal operation is minimized. The headset should not be used if the case is open or if the internal antenna is exposed. When not in use, the Talkman SRX headset should be powered off. In addition, the headset should be worn in accordance with the instructions for this device.

The SRX contains the following radio device. See device label.

Card Manufacturer and P/N	Vocollect SRX FCC ID #	Vocollect Talkman Canadian ID #
CSR BlueCore 3-Multimedia BC358239A	MQOSRX-10000	2570A-SRX10000

The SRX headset contains an integrated Bluetooth® chip.

The SRX product is separately approved for:

1. FCC Part 15 Subpart C
2. Industry Canada RSS211 and RSS139

The Talkman SRX is nominally a Class B digital device, pursuant to Part 15 of the FCC Rules.

Warning: The Talkman SRX headset is a class B product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

Specific Absorption Rate (SAR) Level

The Talkman SRX headset with the CSR BlueCore 3-Multimedia radio has been SAR tested. The maximum SAR value measured was 0.059W/kg.
