Appendix

A

Error/System

Messages

This appendix describes the Talkman error/system messages, and what to do when you hear one.

The following are common Talkman error/system messages that your can hear in your headset. If the message you heard is not listed here, record it and report it to your System Administrator.

> ```
> Battery is getting low.
> ```

This message indicates that the battery level is getting low.

Recommended Action

- As soon as possible, without interrupting data collection, turn the Talkman terminal off by pressing and holding the yellow play/pause button until the LED turns red and then goes off.

- Go to the battery storage area. (This is normally wear you get your Talkman terminal.)

- Take the battery off the Talkman terminal.

- Replace the battery with another charged battery

> **Battery is getting low, Change battery.**

This message indicates that your battery is starting to lose its charge

Recommended Action

- Turn the Talkman terminal off by pressing and holding the yellow play/pause button until the LED turns red and then goes off.

- Return to battery storage area and change the battery

> **Battery failure is imminent. Change battery now.**

This message indicates that your battery is starting to lose its charge

Recommended Action

- Turn the Talkman terminal off by pressing and holding the yellow play/pause button until the LED turns red and then goes off.

- Return to battery storage area and change the battery

> **Noise sampling procedure failed.**

This message indicates that the Talkman terminal was unable to complete its noise sampling procedure

Recommended Action

- Move to a different location where the noise is different.

- Try to turn on your Talkman terminal again.

- If the problem persists, contact your system administrator.

```
Noise sampling procedure timed out.
```

This message indicates that the Talkman terminal was unable to complete its noise sampling procedure.

Recommended Action

- Move to a less noisy area and try again.

- If the problem persists, contact your system administrator.

```
It's too noise to operate now.
```

This message indicates that the Talkman terminal is unable to hear voice due to the noisy environment.

Recommended Action

- Move to a less noisy area and try again.

- If the problem persists, contact your system administrator.

```
Task load failed.
```

This message indicates that the Talkman terminal detected an error in the updated task file, and so did not update the task, but kept the current task.

Recommended Action

- Try to change the task again.

- If the problem persists, contact your system administrator.
