BLUETOOTH® ▾

PAIRING A BLUETOOTH PHONE WITH VOICE RECOGNITION

- 1 Press the PHONE button hard key **A** or the PHONE button **B** on the multi-function steering wheel (if equipped).
- 2 Wait for the "ready" prompt and say "Setup phone pairing."
- 3 Wait for the beep and say "Pair a phone."
- 4 The voice recognition system will ask "Please say a four-digit PIN number." The owner must create his or her own PIN. It is recommended that it be simple (ex. "1234") so it is easy to remember.
- 5 The voice recognition system will ask for a phone name and a priority (1-7).
- 6 Follow the instructions of the specific phone provider to complete phone pairing.

Voice recognition enables the user to access and call phone numbers via voice prompts after pressing the PHONE button.

A vehicle must be equipped with the optional uconnect Bluetooth feature and paired with a certified Bluetooth cellular phone.

Important Warnings and Safety Information, which you must read, are listed on the last panel, under BLUETOOTH® WARNINGS.

WINDSHIELD WIPERS ▾

INTERMITTENT

Rotate the end of the multi-function lever stalk to one of the four intermittent settings.

CONSTANT

Rotate the same end of the multi-function lever past the intermittent settings—one click past for a lower constant wipe, two clicks past for a faster wipe.

TO WIPE THE WINDSHIELD ONCE

Make a quick inward tap on the end of the multi-function lever.

TO WASH THE WINDSHIELD

Make a single inward push of the multi-function lever. The washers will keep spraying as long as the lever is pushed.

TO ACTIVATE THE REAR WIPER

Rotate the tall tabbed switch **A** one click away from you.

TO WASH THE REAR WINDOW

Push and hold the switch all the way forward. When the switch is released, the rear wiper resumes its intermittent activity.

Important Warnings and Safety Information, which you must read, are listed on the last panel, under WINDSHIELD WIPER WARNINGS.

REAR SEAT ENTERTAINMENT ▾

PLAYING TWO DVDS AT ONE TIME ON SEPARATE SCREENS

- 1 Load a DVD in the upper player by pressing the LOAD hard key **A**. The screen will open. Place a DVD in the slot and press the LOAD key again to close the screen.
- 2 Load a DVD in the lower player by inserting it in the slot.
- 3 Press the MENU hard key **B**.

- 4 Select REAR VES option on the touchscreen.
- 5 Select Screen 1 (the screen in the second-row seat).
- 6 Select DISC **C** in the MEDIA column to play the DVD in the upper player – or –
- 7 Select DVD **D** in the REAR VES column to play the DVD in the lower player.
- 8 Repeat steps 4 through 6, selecting Screen 2 to assign the remaining DVD to the remaining screen.

This Guide is not a substitute for the Owner's Manual. You must read it and the warnings included in it.

BLUETOOTH® WARNINGS:

- Use of Bluetooth technology requires compatible phone.
- Any voice commanded system should be used only in safe driving conditions following local laws and phone use. All attention should be kept on the roadway ahead. Failure to do so may result in a collision causing serious injury or death.

WINDSHIELD WIPER WARNINGS:

- Sudden loss of visibility through the windshield could lead to a collision. You might not see other vehicles or other obstacles. To avoid sudden icing of the windshield during freezing weather, warm the windshield with defroster before and during windshield washer use.

KEY FOB ▾

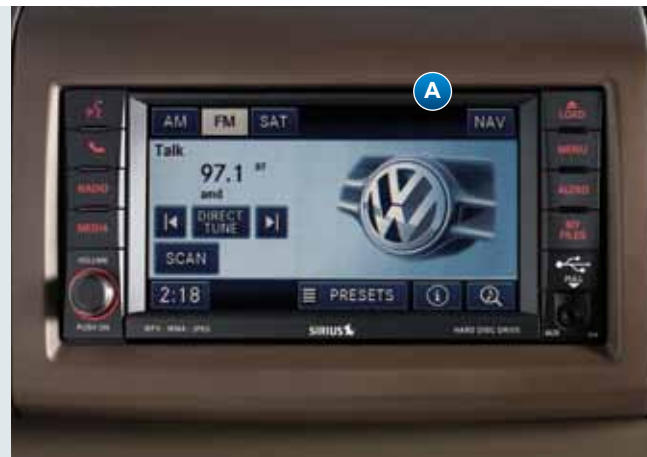

TO ASSIGN A DESTINATION

Push the lock button **A** on the key fob once. The horn will sound and the lights on the outside mirrors, as well as the turn signals, will blink once.

UNLOCK

- ▶ To unlock the driver's door and all doors, push the unlock button **B** on the key fob once. The headlights will illuminate and the blinkers will blink twice.
- ▶ To unlock all doors, push the unlock button again.

NAVIGATION ▾

SETTING A HOME LOCATION WHEN YOU'RE NOT AT HOME

- ▶ Touch the NAV soft key **A** in the upper right of the touchscreen.
- ▶ Touch "Where To?" on the touchscreen.
- ▶ Touch "Go Home."
- ▶ Touch "Enter my Address."
- ▶ Touch "Spell city."
- ▶ Use the touchscreen keyboard to enter city, press DONE when finished.
- ▶ Use the touchscreen keyboard to enter house number, press DONE when finished.
- ▶ Use the touchscreen keyboard to enter street, press DONE when finished.
- ▶ Press SAVE to store your home address.

IF YOU'RE ALREADY AT HOME

- ▶ Touch the NAV soft key in the upper right of the touchscreen.
- ▶ Touch "Where To?" on the touchscreen.
- ▶ Touch "Go Home."
- ▶ Touch "Use my current location" to set as your home location.
- ▶ Press SAVE to store your home address.

IF YOUR HOME DESTINATION CITY IS IN A DIFFERENT STATE THAN YOU ARE TRAVELLING IN

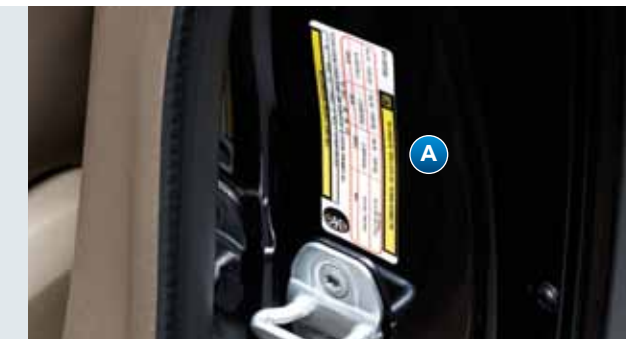

- ▶ Touch the NAV soft key in the upper right of the touchscreen.
- ▶ Touch "Where To?" on the touchscreen.
- ▶ Touch "Go Home."
- ▶ Touch "Enter my Address."
- ▶ Touch "Change State/County."
- ▶ Touch your home state.
- ▶ Touch "Spell city."
- ▶ Use the touchscreen keyboard to enter city, press DONE when finished.
- ▶ Use the touchscreen keyboard to enter house number, press DONE when finished.
- ▶ Use the touchscreen keyboard to enter street, press DONE when finished.
- ▶ Press SAVE to store your home address.

TIRE PRESSURE MONITORING SYSTEM ▾

PROPER TIRE PRESSURE

The sticker on the driver's doorjamb **A** displays the correct tire pressure. Inflate your tires to those specifications.

TIRE PRESSURE MONITORING SYSTEM

If you see the TPMS symbol **B** on your instrument panel or the text "tire pressure too low" in the multi-function display, check the tire pressure and inflate the low tire to the correct pressure as soon as possible.

Sometimes on cool mornings, a warning may appear and then disappear as the tires get warmer. It may take up to 20 minutes for the tire pressure monitoring system to adjust to variations in temperature.

⚠ KEY FOB WARNINGS:

- Never leave children alone in a vehicle. Leaving unattended children in a vehicle is dangerous for a number of reasons. A child or others could be seriously or fatally injured. Don't leave the keys in the ignition. A child could operate power windows, other controls, or move the vehicle.
- Do not leave children or animals inside parked vehicles in hot weather. Interior heat build-up may cause serious injury or death.
- An unlocked car is an invitation to thieves. Always remove the key from the ignition and lock all doors when leaving the vehicle unattended.
- The Sentry Key® Immobilizer system is not compatible with some after-market remote starting systems. Use of these systems may result in vehicle starting problems and loss of security protection.
- Always remove the Key Fobs from the vehicle and lock all doors when leaving the vehicle unattended.
- Do not start or run an engine in a closed garage or confined area. Exhaust gas contains Carbon Monoxide (CO) which is odorless and colorless. Carbon Monoxide is poisonous and can cause serious injury or death when inhaled.
- Keep Remote Keyless Entry (RKE) transmitters away from children. Operation of the Remote Start System, windows, door locks or other controls could cause serious injury or death.

⚠ NAVIGATION SYSTEM WARNINGS:

- To prevent injury or fire, take the following precautions:
- To prevent a short circuit, never put or leave any metallic objects (such as coins or metal tools) inside the unit.
 - Do not watch or fix your eyes on the unit's display when you are driving for any extended period. Failure to avoid the following potentially hazardous situations could result in an accident or collision resulting in death or serious injury.
 - When navigating, carefully compare information displayed on the navigation system to all available navigation sources, including information from street signs, visual sightings, and maps. For safety, always resolve any discrepancies or questions before continuing navigation.
 - Always operate the vehicle in a safe manner.
 - Do not become distracted by the navigation system while driving, and always be fully aware of all driving conditions. Minimize the amount of time spent viewing the screen of the navigation system while driving.
 - Do not enter destinations, change settings, or access any functions requiring prolonged use of the navigation system controls while driving. Stop your vehicle in a safe and legal manner before attempting such operations.
 - Keep the system volume at a low enough level to be able to hear outside noises while driving. If you can no longer hear outside noises, you may be unable to react adequately to the traffic situation. This may cause accidents.
 - The navigation system will not display the correct current position of the vehicle the first time it is used after purchase, or if the vehicle battery is disconnected. GPS satellite signals will soon be received, however, and the correct position will be displayed.
 - Be careful of the ambient temperature. Using the navigation system at extreme temperatures can lead to malfunction or damage. Also note that the unit can be damaged by strong vibration, by metal objects, or by water getting inside the unit.
- CAUTIONS:**
- Failure to avoid the following potentially hazardous situations may result in injury or property damage.
- The navigation system is designed to provide you with route suggestions. It does not reflect road closures or road conditions, weather conditions, or other factors that may affect safety or timing while driving.
 - Use the navigation system only as a navigational aid. Do not attempt to use the navigation system for any purpose requiring precise measurement of direction, distance, location, or topography.
 - The Global Positioning System (GPS) is operated by the United States government, which is solely responsible for its accuracy and maintenance. The government system is subject to changes that could affect the accuracy and performance of all GPS equipment, including the navigation system.
 - Although the navigation system is a precision navigation device, any navigation device can be misused or misinterpreted and, therefore, become unsafe.

⚠ TPMS WARNINGS:

- The TPMS has been optimized for the original equipment tires and wheels. TPMS pressures and warning have been established for the tire size equipped on your vehicle. Undesirable system operation or sensor damage may result when using replacement equipment that is not of the same size, type, and/or style. Aftermarket wheels can cause sensor damage. Do not use tire sealant from a can, or balance beads if your vehicle is equipped with a TPMS, as damage to the sensors may result.
