What's in the box?

(1) Dreamweaver Sound Soother Speaker
(1) Charging Cable

# Getting started

1. CHARGE THE DREAMWEAVER

Before you start using the Dreamweaver for the first time, it's a good idea to charge it completely.

To charge the Dreamweaver: Open the DC IN flap on the back of the Dreamweaver. Plug the included charging cable into the jack behind this flap. Plug the other end into a power source, like a computer or a USB charging adapter. The indicator above this jack turns red to show the Dreamweaver is charging.

Everyday use

PLAYING SOUNDS

The Project Nursery Dreamweaver offers a variety of soothing lullabies and nature sounds, as well as white noise, to calm baby.
To cycle through these sounds: Press the 🎵 button on the back of the Dreamweaver. Each press goes to a different selection.

To adjust the volume: Press the **–** or **+** button.

To turn sounds off: Press and hold the ⏻ button on the back of the Dreamweaver. (If lights are on, they remain on.)

PAIRING WITH YOUR PHONE (BLUETOOTH)

The Project Nursery Dreamweaver can also play music from your smartphone or other Bluetooth device. Here's how to set it up.

With the Dreamweaver on, give a short press to the ⏻ button on the back of the Dreamweaver. The blue indicator light on the back of the Dreamweaver starts blinking.

Back of the Dreamweaver

Enable Bluetooth on your smartphone or other device (if it isn't already enabled).

Choose "**PN Dreamweaver**" from the list of pairing options on your smartphone. (If it's not in the list, choose "**Scan**" from your phone's Bluetooth menu.)

The Dreamweaver gives an audio signal when it's finished pairing and connecting to your smartphone. The indicator turns solid blue.

Note: The process of enabling Bluetooth and connecting varies from device to device. See your device's owners manual for more information and specific instructions.

USING THE TIMER

The timer shuts the lights and sound off automatically after a set amount of time.

Back of the Dreamweaver

To set the timer: Press the ⏳ button on the back of the Dreamweaver.

The minutes indicator on the back of the Dreamweaver shows the amount of time on the timer: **15**, **30**, **45**, or **60** minutes.

Press ⏳ to cycle through these options or turn the timer off.
USING THE NIGHTLIGHT

The Dreamweaver offers four kinds of fun, firefly light modes.

Back of the Dreamweaver

To turn the light on: Press the 💡 button on the back of the projector.

To change light modes or turn off the light: Press the 💡 button repeatedly to cycle through the modes (fade, sparkle, dance, and rhythm) and to turn the light off.
