1

Charging

1. Before the first use, fully charge the built-in battery.
2. Plug the small end of the USB cable into the USB charging port on the left earcup. Plug the other end into a USB wall charger or computer that is powered on.

LED Indicator	Battery Status
Blinking Red	Need to charge (charge<10%)
Solid Red	Under Charging
Red light off	Full charged

Note: When the battery charge <3%, the headphone will power off automatically.

Power On

Press ⑩ button until hear a rising tone and LED indicator light on.

Power Off

Press ⑩ button until hear a descending tone and LED indicator light off.

Bluetooth connection

Make sure that the headphone is within 10 meters from your mobile device.

1. Press and hold button ⑩ for 6 seconds, until you hear "Ready to pair" and LED indicator fast blinking blue and red.
2. Go to the Bluetooth settings on your mobile device, search and select "BH600" from the list.
3. Once paired, you hear "connected" and the LED indicator slowly flashes blue.

2

Note:

- When power on (Press ⑩ button 3 seconds until LED indicator blinking blue), the headphone automatically reconnects to the last mobile device it was connected to. (The headphone can memorize maximum of 8 paired devices).
- The headphone will automatically shut down after 10 minutes in pairing mode if no devices are paired for power saving.

Music Control

- Play / Pause..... Click ⑩
- Volume Up..... Click ⏮
- Volume Down..... Click ⏭
- Next track..... Press and Hold ⏮

- End the current call..... Click ⑩
- Redial last-called number..... Press and Hold ⑩

Listening music from external audio source

1. Power on the headphone.
2. Using the AUX Cable(Φ3.5mm), connect your external device to AUX-in port on headphone.
3. It will automatically turn to AUX-in mode.

Note: Under AUX-IN mode, headphone buttons and speakerphone function are not workable.

3

Noise cancelling function

You can use the noise cancelling function with or without power on.

Press the "ANC" button to turn on / off the noise cancelling function.

Note: If the headphone battery is depleted, you cannot use noise cancelling.

Specifications

- Bluetooth Version: 4.1
- Support: A2DP V1.2, AVRCP V1.4, HFP V1.6, HSP V1.2
- Wireless working range: 10 meters
- Bluetooth transmitter frequency: 2.402-2.480GHz
- Bluetooth transmitter modulation: GFSK, π/4 DQPSK, 8DPSK
- Driver Unit: Φ40mm (32ohm, 20mW)
- Frequency response: 20Hz-20kHz
- Audio-SNR@1KHz = 93dB
- Mic-SNR@1KHz = 92dB
- Active noise reduction: 20dB @ 20Hz-1kHz (MAX)
- Battery type: Li polymer (3.7V/520mA)
- DC input voltage/current: 5V ± 0.25V / 0.5A
- Playtime: 12-18 hours (varies by volume level and content)
- Battery charge time: 2-3 hours

4

Caution

- It is dangerous and illegal (in some jurisdictions) to use headphones when you're driving car, riding bike, motorcycle, or watercraft.
- Do NOT use the headphone in situations where they might cause distractions or prevent you from hearing warning sounds.
- Keep the headphone away from fire, water, liquids, extreme heat: such like the dashboard of your car on a hot day.
- Do NOT use this headphone at high volume for extended periods, as this may cause permanent hearing damage or loss.
- Do NOT drop or knock the headphone on hard surfaces.
- Do NOT use chemicals or detergents to clean the headphone.
- Do NOT scrape the surface with sharp objects.
- Do NOT make unauthorized alterations to this headphone.

Troubleshooting

Cannot power on

Charge the headphone and make sure it has enough battery charge.

5

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
