Box contains: Vector, We-Vibe remote, charging cable, quick start guide, safety instructions, pouch

## Getting to know your Vector

### 1 Control button

Press the control button to switch your toy on. Press the button again to cycle through 10 different vibration modes. Hold the button for 2 seconds to turn your toy off.

### 2 Magnetic charging pins

### 3 Adjustable design

Customize Vector to your body for maximum comfort by adjusting the internal arm.

### 4 Prostate stimulation

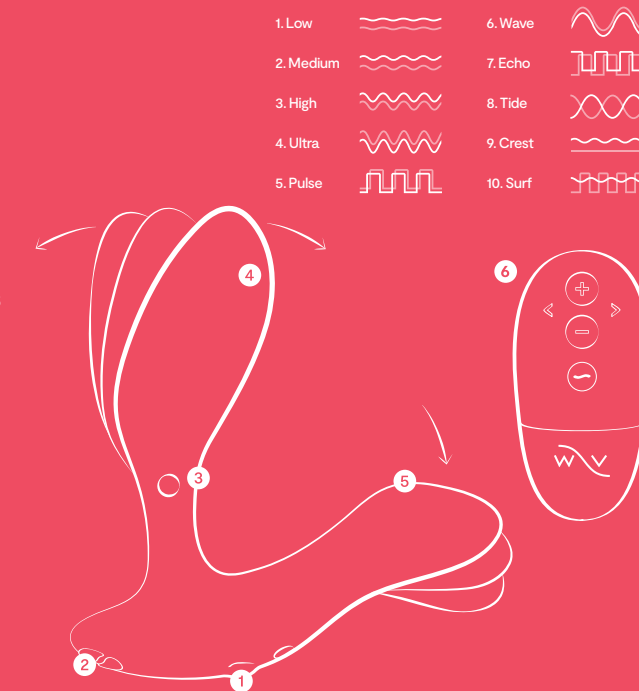

The adjustable internal arm stimulates your prostate for next level pleasure.

### 5 Perineum stimulation

The flexible base stimulates your perineum and maintains comfort and stability.

### 6 We-Vibe remote

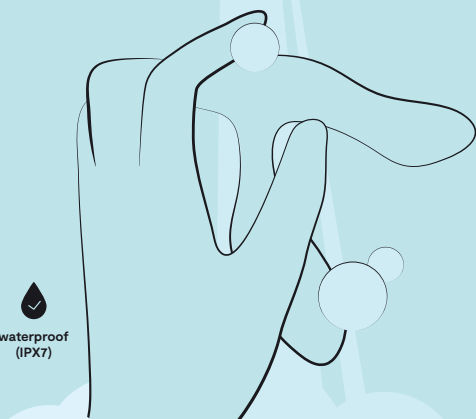

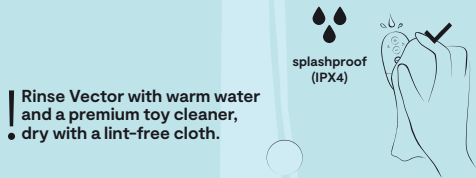

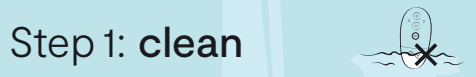

Keep control in the palm of your hand with Vector's compact remote.

# Step 1: clean

Rinse Vector with warm water and a premium toy cleaner, dry with a lint-free cloth.

waterproof (IPX7)

# Step 2: enjoy

Vector is designed to be adjusted to fit you. You can make small adjustments to the position of Vector's internal perineum stimulator at the adjustability point indicated by the dot in the illustration.

Apply a water-based lubricant to the prostate stimulator and your anus. Slowly insert the stimulator, allowing the anal muscles time to relax and stretch without pain.

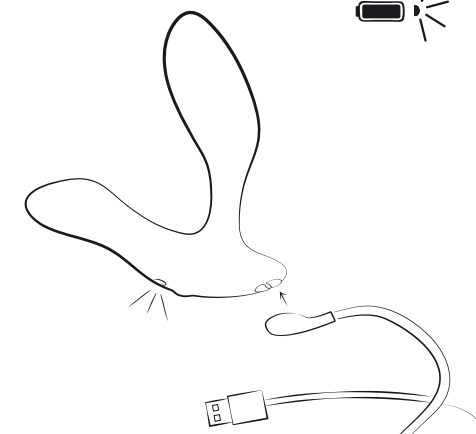

For removing Vector allow the anal muscles to relax and gently pull on the base.

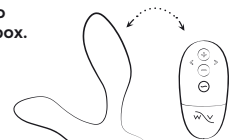

# Step 3: charge

Enjoy up to 2 hours of play with every charge. When it's time for a recharge, place charger on magnetic pins. After 90 minutes, your toy is ready to go!

# Step 4: pair your toy

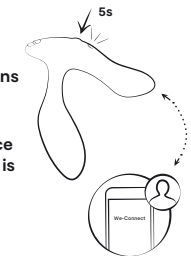

Vector comes paired to the remote out of the box.

Vector can only pair to one remote or app-enabled device at a time.

## Same room play

To pair Vector to We-Connect, follow the in-app pairing instructions on your app-enabled device. Press and hold the control button for 5 seconds. Vector vibrates twice and the LED will flash when Vector is in pairing mode. Once paired, Vector will vibrate three times.

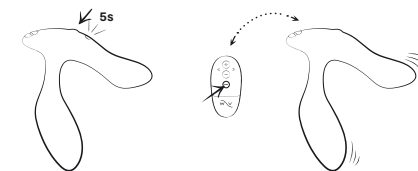

## Long distance play

To play long distance, both you and your partner need the We-Connect app on your smartphones. Vector is then paired to the phone that remains within Bluetooth range.

After exiting the We-Connect app, press and hold the control button on Vector for 5 seconds. The LED will start flashing. Hold the We-Vibe button on your We-Vibe remote for another 5 seconds.

Once paired, Vector will vibrate 3 times and LED will stop flashing.

# Step 5: battery

To change the battery in your remote, simply pull off the bottom cap and lift the battery out. Replace it with a non-rechargeable CR2032 button cell battery.
