Getting to know your Melt

1 On/Increase

Press the **+** button to switch your toy on. Press the button again to increase the intensity.

2 Off/Decrease

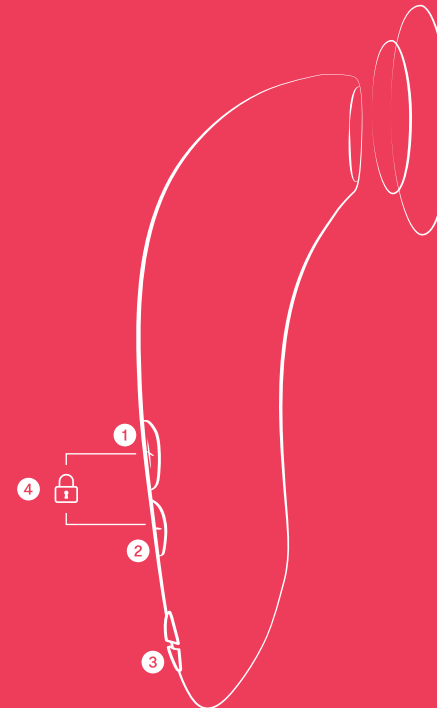

Press the **-** button to decrease the intensity. Hold the minus button to switch your toy off.

3 Magnetic charging pins

This small area is conveniently located and easy to access for charging.

4 Travel lock

For safe and discreet travel, activate the travel lock feature by holding the **+** and **-** buttons at the same time for 2 seconds. Melt will pulse twice and your device will lock – do the same again to unlock.

Step 1: clean

Rinse Melt with warm water and a premium toy cleaner, and dry with a lint-free cloth.

waterproof (IPX7)

Step 2: enjoy

Place Melt's head on your clitoris. Enjoy touchless stimulation through changes in air pressure.

Perfectly shaped for couples play that fits between you in any position.

Step 3: travel

Avoid unwanted attention when travelling by holding the ⊕ and ⊖ buttons for 2 seconds to activate the travel lock. Do the same to deactivate it.

Step 4: charge

Enjoy up to 90 minutes of orgasmic pleasure with every charge. When it's time for a recharge, place charger on magnetic pins. After 90 minutes, your toy is ready again. And again.

Step 5: pair

Melt can only pair to one app-enabled device at a time.

Same room play:

To pair Melt to We-Connect, follow the in-app pairing instructions on your app-enabled device.

Press and hold the plus button for 5 seconds. The LED will flash when Melt is in pairing mode.

Once paired, Melt will vibrate three times and the LED will stop flashing.

Long distance play:

To play long distance, both you and your partner need the We-Connect app on your smartphones. Melt is then paired to the phone that remains within Bluetooth range.
