PRECAUTIONS ON USE AND HANDLING

To ensure the safe operation of your Cintiq 24HD, be sure to follow all instructions, cautions, and warnings found within this manual. Failure to do so could cause damage to Cintiq 24HD, damage to your computer or loss of data. Failure to do so could also void your warranty, in which case Wacom shall have no responsibility to repair or replace the product.

PHYSICAL LOCATION

WARNING

The Cintiq 24HD interactive pen display was designed and tested for use in normal office environments, but may also be used in climate controlled environments that fall within the environmental conditions listed below. This product has not been tested for use in specialized medical or military applications and operating environments.

In addition, this interactive pen display is neither waterproofed nor explosion resistant. It serves and can be used solely as a passive display and input device.

In all applications for which it was not designed, no information on the products performance, durability or potential issues can be supplied as it has not undergone testing for these uses.

The use of this interactive pen display in applications and environments other than a normal office environment is at the user's own risk.

ENVIRONMENT

CAUTION

Temperature and humidity

- Operating temperature and humidity: 5° to 35°C, 20 to 80 % RH
- Storage temperature and humidity: -10° to 60°C, 20 to 90 % RH

Do not use or store Cintiq where:

- Temperature changes are severe or exceed specifications (e.g. outdoors or inside a vehicle).
- The pen display, the Grip Pen, and the Cintiq stand are exposed to direct sunlight or heat from an appliance, or are exposed to water or any other kind of liquid.

Do not use Cintiq in a dusty environment; this may damage the unit.

USAGE

WARNING

Only use a power adapter specified for use with your Cintiq. If a different type of power adapter is used, Cintiq will not work properly or may be damaged. Using a different type of power adapter also has the potential to result in fire. Use of a different power adapter will void your warranty.

Regularly remove dust build-up from the power plug. The addition of moisture, etc., to accumulated dust may create a fire hazard.

Do not damage, forcibly bend, or bundle the power cord. Do not place heavy objects on the cord or expose it to excessive heat. Ignoring this warning may result in fire, electrical shock, or product failure.

Do not connect or disconnect the power adapter with wet hands. Ignoring this warning may result in electrical shock or product malfunction.

Do not insert foreign material into the USB port, video connector ports, or any other opening of this product. If a metal object or foreign material is inserted into a port or other opening of this product it may cause product malfunction, fire, or electrical shock.

CAUTION

Use a grounded power source when applying power to Cintiq.

Do not connect or disconnect the video or power cables while Cintiq or your computer are turned on; this may damage the display or computer video card. In this case, Wacom shall have no responsibility to repair or replace the product.

This product is for use with a DisplayPort, DVI, or VGA video card. Using an inappropriate video card may damage Cintiq.

Do not block the rear panel ventilation holes; this may overheat and damage the unit.

When not using Cintiq for long periods of time, unplug the power adapter from the AC outlet.

HANDLING

WARNING

High Voltage. Do not open or disassemble the Cintiq interactive pen display. There is a risk of electrical shock when the casing is open. This will also void your warranty and Wacom shall have no responsibility to repair or replace the product.

Request assistance from another person or persons when lifting or moving this product. Physical damage or personal injury may result from a single person attempting to carry this product.

Move this product in the following manner:

- Before moving Cintiq, adjust the pen display height and incline so the display stand support arms are locked upright, with Cintiq positioned horizontally. Place all cables on top of the stand base and ensure they do not hang free. Tripping over loose cables can cause physical damage or personal injury.

- Request assistance from another person or persons. Each person should securely grasp the lower part of a display support arm near the display stand base. With the other hand, grasp the base of the stand at the front corner. Using care, lift and carefully move this product while supporting the base of the stand.

Important: The assembly is heavy. Do not attempt to lift Cintiq by yourself. Each person should use both hands to securely grasp the product. Grasp the stand base at the corner areas to avoid any sharp edging. **DO NOT** lift the display unit itself, otherwise damage might occur to the LCD if it flexes during movement. Also, the display unit does not have sufficient strength to support the load of the stand hanging freely from it. Work together, and lift carefully.

- Locate Cintiq on a desktop or other working surface that is flat, clean, and free of any moisture or oily film. Taking care not to pinch your fingers, do this by first placing the rear half portion of the stand onto the table surface. Then slide the stand fully into place so that it will not tip or fall.

- When in place, use the incline levers to rotate the display back to a vertical position.

Always support the display with one hand before releasing from the locked position.

Do not hold the support arms when releasing the lock.

The display comes down when the lock is released. As the display moves downward, ensure that your fingers are not caught between the support arms and base of the display or stand.

Ensure that cabling or other objects do not get entangled in the moving parts of the stand.

Do not place this product on any wet surface or table. The rubber pads on the base of this product may slip, allowing the product to fall from the surface.

When moving this product, ensure all cables are fully disconnected from the power outlet, computer, and other areas. Appropriately bundle the cables to ensure they do not hang free and create a hazard. Tripping over loose cables can cause physical damage or personal injury.

This product weighs approximately 30 kg (66 lbs). Ensure that any table or platform on which this product is installed can withstand the weight of the product. The table or platform should have sufficient width and depth, and be robust enough not to easily topple over.

Do not place this product on any unsteady surface or table. Do not place on slanted areas, unstable areas, or areas where vibration is present.

Physical damage or personal injury may result if this product falls from an unsuitable surface.

Place this product completely and securely on a level, stable surface. Do not allow any portion of the display stand base to protrude from the installation surface. Otherwise, Cintiq may fall and cause physical damage or personal injury.

Use care when adjusting the working position. Use a smooth, horizontal motion when pulling Cintiq toward you. Do not lift the stand from the desktop. You can move the stand base to align with the edge of your desktop. DO NOT let the stand base protrude over the desktop.

If you pull too far, and as the front of the stand moves over the edge of your desktop, the friction of the base pads will increase and "lock" the stand in place. Do not pull beyond this point or past the base pads. Push the display stand back onto the working surface until the front edge of the stand base aligns with the edge of the installation surface.

Improper movement or pulling beyond the tipping point will prevent the friction lock from engaging, and could cause personal injury or damage to the pen display if it were to fall.

Do not sit on or hang from the table or other surface where this product is placed. The product may fall and cause physical damage or personal injury. Take extra care where children are present.

When using Cintiq in a position where the display overhangs your desktop, do not push or lean against the bottom edge of the display. This could cause the stand to disengage and possibly result in personal injury or damage to the pen display if it were to fall. When you are done working, always move Cintiq fully back onto the desktop. See the user's manual for more information.

The Cintiq interactive pen display has been specifically designed for use when mounted on the Cintiq display stand. However, some specialized applications (such as the use of a VESA mounting fixture) may require removal of the pen display from the stand. If it becomes necessary to remove the pen display from the stand, see the appropriate instructions in the Cintiq user's manual.

If the LCD screen has been damaged, DO NOT touch any liquid that may be leaking from it; this liquid is an irritant. In case of contact with skin, eyes, or mouth, rinse immediately with running water for at least 15 minutes or more. If contact is made with the eyes or mouth, also consult a physician.

The pen display has a backlight which contains mercury (Hg). Be sure to dispose of properly, and to manage any disposal of this unit in accordance with your local ordinances and laws.

Choking hazard. Prevent children from swallowing the pen tip or side switch. The pen tip or side switch may accidentally be pulled out if children are biting on them. Prevent children from playing with any packing materials or wrapping, as a choking or suffocation hazard may exist.

Refrain from using Cintiq during thunder or electrical storms. Disconnect Cintiq also from the AC power source during such weather. Using Cintiq during thunder or electrical storms may cause product malfunction, fire, or electrical shock.

CAUTION

Do not disassemble the Grip Pen. This may cause the device to malfunction. In this case, Wacom shall have no responsibility to repair or replace the product.

Do not strike hard objects with the pen, such as repeatedly tapping the pen against a desk surface. Doing so may cause damage to the pen.

Do not apply excessive pressure or stress to the pen tip, eraser, or side switch. This may cause premature failure or malfunction.

Only use a replacement pen tip (nib) specified for your product by Wacom.

Do not scratch the display screen. Avoid placing sharp objects on the display screen surface.

Avoid intensive shock or vibration to Cintiq, the Cintiq stand, or the Grip Pen. Hitting or dropping Cintiq may damage the display screen or other components.

Do not put heavy objects on the pen display or push against it with a strong force; this may damage the display screen or break the Cintiq stand locking mechanism.

Do not place heavy articles on the pen display cabling, repeatedly bend the cables sharply, or apply heavy stress to the cable connectors; this may damage the unit or cabling.

Do not store the pen display on a surface that would excessively bend or crimp the cable.

If your pen display has a coated surface, a worn pen nib that is sharp or angular may cause damage. Replace the pen tip if necessary.

Do not use any organic solvent (e.g. alcohol) or even mild detergent to clean the display screen. Use of these cleaners can damage the display screen. Damage of this kind is not covered by the manufacturer's warranty.

- Before cleaning, always disconnect your product from the AC power source.
- To clean the display screen, use an anti-static cloth or a slightly damp cloth. When cleaning, apply only a light amount of pressure to the display screen and do not make the surface wet.
- To clean the Cintiq casing, Cintiq stand, or Grip Pen, use a slightly dampened (with water), soft cloth.

Always disconnect Cintiq from the AC power source if the unit appears to be malfunctioning, or has been damaged by a fall or in some other manner.

LIMITED WARRANTY (EUROPE, AFRICA AND MIDDLE EAST)

WACOM warrants to you, as the initial purchaser, (hereinafter referred to as "you" or "the customer") that the product hardware will remain free from defects in materials and workmanship under normal use and service for a warranty period of TWO (2) YEARS, and in case of Cintiq products for a warranty period of THREE (3) YEARS, commencing from the purchase date and provided that the product was unused at the time of purchase. Defects in wear parts (e.g. pen nibs, tablet surfaces and batteries) resulting from normal wear and tear are exempt from the warranty. Furthermore, WACOM warrants that the data carriers delivered with the product are free from defects in materials and workmanship under normal use for a period of SIX (6) MONTHS from the date of purchase.

If during the applicable warranty period the product, excluding any software, is discovered to be defective, it should be returned immediately to the place of purchase in its original packaging together with your name, address, and telephone number, a description of the problem, and a copy of the original receipt. The customer shall be liable for any possible damage or loss of the product during transit to the place of purchase for this purpose.

WACOM's sole obligation and entire liability under this warranty shall be, at WACOM's option, either the repair or the replacement of the product or parts thereof that prove defective and that were returned within the applicable warranty period.

WACOM does not warrant to repair or replace the product if: (a) the damage to the product results from accident, misuse, improper use, negligence or unauthorised alteration or repair; (b) the product was not handled or stored according to the instructions provided by WACOM; (c) the damage resulted from normal wear and tear of product parts; or d) the serial number affixed by WACOM has been removed or rendered unintelligible.

Any descriptions, drawings, specifications, samples, models, notifications or similar material provided in connection with the purchase of the product cannot be taken as an explicit guarantee that the product corresponds to or fulfils your requirements.

The warranty guaranteed by law remains unaffected. You can claim defects of the product in accordance with the relevant legal provisions.

WACOM shall only be liable for itself and its vicarious agents if a material contractual obligation has been culpably breached in a manner jeopardising the purpose of the contract or the damage is due to intentional acts or omissions or gross negligence. A material contractual obligation is an obligation which is essential to the proper performance of the contract on which the other party will typically rely. In case that the culpable infringement of such a material contractual obligation is not due to intention or gross negligence, the liability of a party shall be limited to such damages being typical for the contract and which were reasonably foreseeable at the time of the closure of the contract. Where these Terms and Conditions preclude or limit liability, this also applies to the personal liability of the executive officers of the party concerned, its employees, agents and subcontractors. The provisions of the product liability law (Produkthaftungsgesetz) remain unaffected.

If, when a claim made under this warranty is checked, it emerges that it is outside the permitted time period or is not covered by the warranty or that the product is not defective, the customer will reimburse WACOM for associated costs.

This limited warranty shall apply if the registered office of the vendor is situated in the EU or Iceland, Norway, Jersey, Switzerland, Russia, the Ukraine, Croatia, Serbia, Tunisia, Turkey, Syria, Lebanon, Jordan, Israel, Egypt, the United Arab Emirates, Iran or South Africa.

This warranty is subject to German law. However, the applicability of the United Nations Convention on Contracts for the International Sale of Goods is explicitly excluded. The city of Krefeld, Germany, is the sole place of jurisdiction for all claims arising from this contractual relationship and all disputes between the parties resulting from the formation, handling or termination of the contractual relationship, provided that the customer is a trader, a legal entity or fund under public law. The jurisdiction agreement shall also apply for customers who do not have a general place of jurisdiction in Germany. The jurisdiction agreement shall not apply if, due to legal provisions, a different sole place of jurisdiction must be established for the case. Furthermore, WACOM is authorised to file a lawsuit against the headquarters of the customer.

Should one of the provisions of this limited warranty be or become void, the validity of the other provisions shall not be affected, in full or in part. Should a provision be invalid, the legally permissible regulation most closely resembling the invalid regulation shall apply in its place.
