

Important Product Information

Wacom Intuos Pro,

(PTH-460)

Precautions

PRECAUTIONS

WARNING

Do not dismantle or modify the device. Failure to observe this may result in heat generation, the outbreak of fire, electric shocks or other damage, including human injury. Dismantling the device will void the warranty.

Avoid damaging the USB cable. Do not place heavy objects on the cable, repeatedly bend it sharply, or apply heavy stress to the cable connector. Damage to or laceration of the USB cable, or water or other liquids coming into contact with it, may result in malfunction, electric shock or the outbreak of fire.

Do not expose the device to water or other liquids. Failure to observe this may result in malfunction or electric shock. In the event of liquid being spilled on the device, stop using it, switch off the power supply and contact your distributor or Wacom Customer Support Center.

Do not insert metallic objects or foreign objects into the device opening or connector terminal. Failure to observe this may result in malfunction, electric shock or fire damage.

Store the device in a location well out of the reach of children. Failure to observe this may result in children accidentally swallowing components or parts detached from the device.

Switch off the power supply before cleaning the device.

Do not use alcohol and other organic solvents, or neutral detergents, as they may cause color change or other damage.

Such damage is not covered by the manufacturer's warranty.

Do not use or store the device in the following environments:

- Environments subject to severe temperature fluctuations.
- Environments subject to temperature and humidity ranges that exceed specified usage conditions (such as outdoors or inside vehicles.)
- Environments subject to dusty conditions.
- Near to open flames."

To avoid possible damage or malfunction, do not apply excessive force to the movable part of this device including the accessories. This may shorten the product life or cause the device to malfunction.

The device contains metallic components. Cease use and immediately contact your doctor in the event of metal allergy symptoms arising during usage.

USAGE NOTE

Do not place or use the device on shaky, inclined, vibrating or other unstable surfaces or worktops.

Other Precautions:

- Do not place metallic objects on top of the device and do not use it on top of metallic tables, etc. Keep the device away from magnets and magnetic fields.

Failure to observe this may result in interference, malfunction or damage.

Do not drop the device or use it to strike hard objects.

Failure to observe this may result in damage.

- Wacom cannot be held responsible for any laceration, damage or loss of data caused by the use of the device.

- To ensure the best performance of your device and to prevent damage, please use only the pens and nibs specified for use with your Wacom device.

Avoid damaging your device. Replace your pen nib when it becomes worn or sharp.

Do not use a distorted or bent pen nib with the pen; a pen in this condition may cause the pen to operate improperly and scratch your tablet. Therefore, avoid pressing too hard when using the pen and bending or distorting the nib.

Do not push hard on the pen tip, or buttons. This may shorten the pen tip life or cause the pen to malfunction.

Do not store the pen so that the pen tip, buttons, are continually depressed.

Move the product periodically to another place on your work surface to avoid permanently discoloring or altering the appearance of the surface.

Do not store the pen so that the pen tip is continually depressed.

Please recycle batteries in accordance with the manufacturer recommendation, following all local laws and regulations.

Usage note for Bluetooth device Devices mounted with Bluetooth devices may interfere with equipment used in aircrafts and other such forms of transport.

Users are therefore obligated to switch off all radio communication devices when traveling in airplanes.

There is a chance that the device may interfere with or cause damage to other electronic equipment. There are also cases in which the effects of other radio communication devices may cause the device to malfunction. Make sure the device is switched off in locations where their use is banned to prevent interference with other electronic equipment. Wacom cannot be held responsible for damages.

Disposal of the built-in lithium-ion battery Please contact Wacom Customer Care about the disposal of the built-in lithium-ion battery.

USAGE NOTE FOR WACOM FINETIP PEN

Please remove the seal on the tip of the pen prior to use.

Do not use for purposes other than writing or drawing.

Do not point the tip of the pen upwards, as ink may leak.

Do not shake hard or apply hard pressure, as ink leakage may occur.

Always put on the cap after use.

Ink may stain on clothes so use caution.

REGULATORY STATEMENT

Federal Communications Commission (FCC) notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio services, the user is encouraged by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) this device may not cause harmful interference,

and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device complies with FCC operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

INDUSTRY CANADA

CAN ICES-3 (B)/NMB-3(B)

Canada (IC) notice:

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS-247. Operation is subject to the following two conditions:

1. This device may not cause interference.

2. This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure Statement:

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this document. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

EU CONFORMITY INFORMATION

CE Herby, Wacom declares that this product is in compliance with RE Directive and Directive.

The full text of the EU declaration of conformity is available at the following internet address:

www.wacom.eu/certificates

Frequency Band: 2.4 GHz (2400 – 2483.5 MHz)

Maximum Radio-Frequency Power Transmitted: less than 20 dBm

RCM regulation

IMDA (Infocomm Media Development Authority of Singapore)

Complies with

IMDA Standards

DB102850

ENVIRONMENTAL COMPLIANCE

For customers in the USA and Canada recycling Lithium-Ion Batteries

You can help protect our environment by returning your used rechargeable batteries to the collection and recycling location nearest you.

For more information regarding recycling of rechargeable batteries, call toll free 1-800-822-8837, or visit <http://www.brc.org/>.

Caution: Do not handle damaged or leaking Li-Ion battery.

Waste Electrical and Electronic Equipment (WEEE) Directive

In the European Union, this label icon indicates that this product should not be disposed of with the household waste.

Wacom products are subject to this directive and users should always collect them separately and bring them to appropriate electronic waste collection point in your community or region to enable recovery and recycling. Please refer to your community information on how to recycle electronic waste responsibly in your region.

EU BATTERY DISPOSAL INFORMATION

Note: This symbol mark is for EU countries only.

The symbol mark is, according to the Directive 2006/66/EC Article 20 information and end-users and Annex II, your product is designed and manufactured with high quality materials and components which can be recycled and/or reused.

This symbol means that batteries and accumulators, of which the life cycle has ended, should be disposed of separately from your household waste.

In the European Union there are separate collection systems for used batteries and accumulators. Please, dispose of batteries and accumulators correctly at your local community waste collection/recycling centre.

Disposal of the built-in lithium-ion battery

Please contact Wacom Customer Care about the disposal of the built-in lithium-ion battery.

■

E-Waste

Wacom products are in conformity with the requirements of the directive on hazardous substances of the E-waste Rule 2016.

The content of hazardous substances with the exemption of the applications listed in SCHEDULE III of the E-waste Rules;

- Not over 0.1% by weight in homogenous materials for Lead, Mercury, Hexavalent Chromium, Polybrominated biphenyls, Polybrominated diphenyl ethers

- Not over 0.01% by weight in homogenous materials for Cadmium

For the proper recycling and disposal of this product after its end of life, please visit our website.

Tell us about it and e-mail address are also available on this website:

<https://www.wacom.com/en/in-e-waste/or>

<https://store.wacom.co.in/e-waste>

Do's:

- Always look for information on the catalogue with our product for end-of-life equipment handling.

- Ensure that only Authorized Recyclers/Dismantler recycles your electronic products.

- Always call Neuram Wacom collection point to dispose products that have reached end-of-life.

- Always drop your used electronic products, batteries or any accessories when they reach the end of their life at your nearest Wacom collection Point.

- We never pourable or instruct separate the packaging material according to responsible waste disposal options and sorting for recycling.

- Always ensure any glass surface is protected against breakage.

Dont's:

- Do not dismantle your electronic Products on your own.

- Do not throw electronics in bins having "Do not"

- Do not give e-waste to informal and unorganized sectors like Local Scrap Dealer/Rag Pickers.

- Do not dispose your product in garbage bins along with municipal waste that ultimately reaches landfills.

How to dispose a product

Carry your end-of-life product to the nearest collection Point listed on below website.
