

ZAGGkeys FLEX

The ZAGGkeys™ FLEX is an advanced stand-alone Bluetooth™ keyboard that delivers a simplistic and progressive approach to typing with smartphones and tablet computers. Adaptable, portable and contemporary in style, ZAGGkeys FLEX boosts the functionality and convenience of your gadgets.

Powering on and pairing your keyboard:

The Bluetooth® keyboard should only need to pair to your device once as follows:

1. On the keyboard, slide the power switch on. The status light illuminates for four seconds, and then it turns off.
2. **Apple®:** Select Settings > General > Bluetooth® > On.
Android™: Apps > Settings > Wireless Networks > Bluetooth® (to turn on the Bluetooth®.) Then select Bluetooth® Settings > Find Nearby Devices.
3. Press the Connect button on the keyboard to make it discoverable. The status light flashes on keyboard and the device displays “ZAGGkeys FLEX” as an available device.
4. Select “ZAGGkeys FLEX” on the device. The device will display a unique code.
5. Type the code using the keyboard and press Enter. The keyboard is now paired to the device.

Charge the ZAGGkeys FLEX:

Plug the micro-USB cable into the micro-USB port on the keyboard. Plug the other end of the cable into a powered USB port on a computer, your device wall charger, or any other USB compatible charger.

Lights and buttons:

Charging light:

Turns on when charging and turns off when fully charged

Status light:

1. Flashes when the battery is low (there's about a 20% charge and two to four days of use remaining)
2. Flashes when pairing
3. Lights briefly when you turn on the keyboard, and then turns off

Battery:

The ZAGGkeys FLEX uses a long-life, rechargeable battery that gives you several weeks of normal use. The keyboard goes into sleep mode if it's left on and not being used. Press any key and wait a second or two to bring the keyboard out of sleep mode.

The lithium-polymer battery in the keyboard has no memory effect and may be charged whenever you wish.

When not in use for a prolonged period, we recommend that you turn off the keyboard to lengthen the battery life.

Special Function Keys:

The ZAGGkeys FLEX has special function keys to give you more control of your device.

Home Displays the device home screen

Search Displays the device search screen

Slide-Show Plays a slide-show of saved pictures*

Keyboard Hide/Show Hides or shows device on-screen keyboard*

Cut Cuts selected text to clipboard

Copy Copies selected text to clipboard

Paste Pastes clipboard content in selected field

Lock Activates and deactivates sleep mode on device*

International Keyboard Toggles between international keyboards (if selected in iPad settings)*

Back Takes you back to previous activity**

* Does not work on Android™

** Does not work on Apple®

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Declaration of Conformity

Hereby, Wagons Digital Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

IC Statement

- English: "

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device."

- French:"

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."
