2. In To field, enter the recipient's email addresses manually and separate them with a comma. Add more recipients by tapping Cc/Bcc.
3. To insert attachments, tap the option button at the upper right and select Attach file.
4. Enter the subject and the text.
5. Tap SEND to send the email.

# Web

**Browser**
Tap Browser from application list to access to the web.
◆ **Browser web pages**
1. Select Browser to launch a specified homepage.
2. To access a specific web page, select the URL input field, enter the web address of the web page, and select Go.
3. To zoom in, place two fingers on the screen and spread them apart. To zoom out, move your fingers closer together. You can also double-tap the screen.
◆ **Add windows**
You can have multiple windows open at one time.
1. To add a new window, tap ▬ at the title bar.
2. To open up a window, tap the title of the window.
3. To close the window, tap ✕ at the title bar.
◆ **Set home page**
1. Tap the option button at the upper right.

2.  Select Settings➡General➡Set homepage.
3.  Enter the web address of the desired webpage.
◆ **Add bookmarks**
While navigating a website, tap ⭐ to add current URL to your bookmark list and easily access it later.
◆ **View bookmarks and history**
Tap ⭐ to open the bookmark list and the recent history. Tap a bookmark or any entry to display the webpage.
◆ **Customize browser**
To make adjustments in your browser settings, tap the option button at the upper right, and then select Settings.

**Play Store**
Play Store allows you to easily download an abundance of applications directly to your device. Before using the Play Store, you must have a Google Account.
1.  From the application list, tap Play Store.
2.  Sign in to your Google Account.
3.  Search for and download applications as desired.
4.  Follow the on-screen instructions.
**Note**
● All applications offered by Play Store are developed by third party. To get the information about the developers, you can read the descriptions of each application.
● Our company is not liable for performance issues caused by third-party applications.

**Talk**
Google Talk is a free web-based application for instant text, voice and video chats. Before using the Google Talk, you must have a Google Account.
1.  From the application list, tap Talk.
2.  Set up a Google account or sign in, follow the on-screen instructions.
3.  Select Add friend, enter a friend's email address and select Send invitation.
4.  When your friend accepts the invitation, he or she is added to your friend list. You can start talking.

# Entertainment

**Gallery**

To view or organize your images and video clips, or edit and send your files to other devices, or set photos as wallpapers, select Gallery from application list.
Note: It takes a few more minutes to enter this application if you store more files.

◆ **Supported file formats**

| Type | Format |
| --- | --- |
| Image | JPEG GIE BMR PNG |
| Video | MPEG4-SP, H264/AVC,H263,VPX,3GP,3G2,MP4,MKV,AVI,WEBM |

Note: Some files may not play properly depending on how they are encoded.
◆ **View a photo**
1.  Select a folder.
2.  Select a photo to view. To view more photos, scroll left or right.
3.  To zoom in, place two fingers on the screen and spread them apart. To zoom out, move fingers closer together. You can also double-tap the screen.
4.  To start a slideshow, tap ⠿ at the title bar.
5.  To view the details of a file, tap the option button, then select Details.
6.  To share a photo with others via Email, Gmail or Messaging, tap ⠿ at the title bar.
7.  To set a photo as wallpaper, tap the option button at the upper right ➡ select Set picture as ➡ Wallpaper ➡ drag the slides of the crop box to create the crop area, then tap Crop.
8.  To set a photo as a caller ID, tap the option button at the upper right➡select Set picture as➡Contact photo ➡ Contacts ➡ Create a new contact or select an existing contact ➡ drag the slides of the crop box to create the crop area, then tap Crop.

◆ **Edit a photo**

2. Some files may not play properly depending on how they are encoded.
### Sound Recorder
With Recorder, you can record a voice memo. From application list, tap Recorder.
1. To record a voice memo, tap 🔴 .
2. To pause the recording, tap ⬜ .
3. To listen to a voice recording that you just recorded, tap ▶ .

**Calculator**

With this feature, you can use the device as a calculator. The calculator provides the basic arithmetic functions. Tap the virtual numeric and calculation keys to perform a calculation.

# Connectivity

**USB Connection**
You can connect your device to a PC and use it as a removable disk, which allows you access the file directory.
1. If you want to transfer files from or to a memory card, insert a memory card into the device.
2. With a USB cable, connect your device to a PC.
3. Open the notification panel, select USB connected.
4. Tap Turn on USB storage.
5. Open the folder to view files.
6. Copy files from the PC to the memory card.

**Wi-Fi**

With Wi-Fi, you can connect to the internet or other network devices anywhere an access point or wireless hotspot is available.
◆ **Activate the Wi-Fi feature**
1. From application list, tap Settings.
2. In the field of WIRELESS & NETWORKS, turn on the Wi-Fi feature.
◆ **Find and connect to Wi-Fi**
1. Once the Wi-Fi feature is activated, the device automatically search for available Wi-Fi connection.
2. Select a network.
3. Enter a password for the network (if necessary).
4. Select Connect.

**Safety Precautions**

Read these simple guidelines before using your device. Not following them may be dangerous or illegal.
◆ **Aircraft**
Switch off in aircraft and follow any restrictions. Wireless devices can cause interference in aircraft.
◆ **Vehicles**
Never use your device while driving. Place it in a safe place.
Position your device within easy reach. Be able to access your device without removing your eyes from the road.
◆ **Electronic devices**
In some circumstances your device may cause interference with other devices.
◆ **Potentially explosive environments**
Switch off your device when in any area with a potentially explosive atmosphere, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.
◆ **Pacemakers and other medical devices**
Pacemaker manufacturers recommend that a minimum separation of 8 inches be maintained between a wireless device and a pacemaker to avoid potential interference with the pacemaker.
Operation of any radio transmitting equipment, including wireless phones may interference with the functionality of inadequately protected medical devices. Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions.
Switch off your device in heath care facilities when any regulations posted in these areas instruct you to do so.
◆ **Operating environment**
When connecting to other device, read its user guide for detailed safety instructions. Do not connect incompatible products.
Do not place your device in the air bag deployment area.
Use the device only in its normal operating positions as explained in the product documentation.
Always switch off your device when its use is prohibited or when it may cause interference and danger.
◆ **Areas with posted regulations**
Switch off your device when any regulations posted in these areas instruct you to do so.

# Care & Maintenance

◆ Use only manufacturer-approved accessories. Use general accessories may shorten the life of your device or cause device to malfunction.

◆ Keep your device dry. Humidity and all types of liquids may damage device parts or electronic circuits.

◆ Do not use or store the device in dusty, dirty areas.

◆ Do not store the device in hot or cold areas.

◆ Do not store your device near magnetic fields.

◆ Do not store your device with such metal objects as coins, keys and necklace.

◆ Do not drop your device or cause impacts to your device.

**FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

**Specific Absorption Rate (SAR) information:**

This Mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

**FCC RF Exposure Information and Statement**

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Mobile phone (FCC ID: 2ALZXYUNTAB505) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.459W/kg and when properly worn on the body is 0.794W/kg. the Hotspot SAR value is 0.794W/kg,the simultaneous transmission SAR value is 0.920W/kg on the head and 0.856W/ kg on the body. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

**Body-worn Operation**

This device was tested for typical body-worn operations. To comply with RF

exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
