⚠ OPERATION INSTRUCTIONS

The mini show box needs to be plugged into a power source. It can be plugged into a wall socket directly or into a power cord.

Note: always use UL approved power cords with outdoor rating GFCI outlet, when plugging in your lights, trees and yard décor.

Plug 3 different combinations of lights, trees, and decorations into the 3 outlets on the back of show box. Please make sure the power consumption (Watts) of the each combination is under the max Watts limitation. When the power supply is on, turn on the power switch on the back of show box. The LED display panel shows “- -”

1. Press the Function Button on mini show box panel.
The LED display panel shows “00”
The 3 different receptacles turn on one time sequentially, then all turn on.
2. There are 8 functions of programmed light show modes. Press the Function Button on show box panel to select.
Function 1-7: LED Display panel shows “01-07”
Function 8: Lights dance along with the melody of music.
3. Press the ON/OFF Button power off.
4. Line in mode: Deliver the music to the mini show box via the audio cable. The light show mode automatically changes to function 8 (LED display panel shows “08”)
5. During Line in mode, the Wi-Fi from smart mobile devices cannot be used to transmit music.

⚠ SAFETY INSTRUCTIONS

Please read and understand this entire manual before attempting to assemble, operate or install the product.

1. When in the mode of light & sound show (Light of output plug dances along with music), the maximum output amperage of each plug is 2.5A.
2. When using remote control to control the power (using phone app), the output amperage of each output plug is 2.5A(maximum).
3. **CAUTION** – Risk of Fire. Not for permanent installation. Use only with a total of 10.2 Ampere maximum lighting products. Do not install or use this product for more than a 90-day period.
4. If using lighting products that are not marked with an ampere rating, connect no more than 140 screw-base lamps (C7 or C9) or 12 strings with midget (push-in) lamps to this cord set.
5. If using an Outdoor Seasonal - Use Cord Connected Wiring Device for an extended period of time (greater than 90 days) please consider hard wiring a permanent outdoor-use receptacle rated for year-round use in the area that power is needed. Please contact a licensed electrician for proper installation of permanent wiring.
6. SUITABLE FOR INDOOR/OUTDOOR USE – STORE INDOORS WHILE NOT IN USE.
7. **CAUTION:** PLUG INTO GROUND FAULT PROTECTED RECEPTACLE ONLY.
8. After completion of installation, the connector shall be maintained a minimum of 6 inches above ground.

Federal Communications Commission (FCC) Statement

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

IC Caution:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

DECLARATION DE CONFORMITE D'INDUSTRIE CANADA

Ce périphérique a été testé et reconnu conforme aux limites spécifiées dans RSS-210. Son utilisation est soumise aux deux conditions suivantes :

- (1) il ne doit pas provoquer d'interférences gênantes et
- (2) il doit tolérer les interférences reçues, notamment celles susceptibles d'en perturber le fonctionnement.
