WAVLINK SUPPORT (@WavlinkTechSupport)

Introduction

Wavlink Tri-Band PCI-E is an AX5400 wireless adapter for desktops that supports the latest Bluetooth 5.3. The wireless adapter features stable signal, high speed rate and superior performance. Compliant with 802.11 ax specification, the wireless adapter supports 2.4G, 5G and 6G bands. With 1024-QAM and MU-MIMO technology, WL-WN675X3 delivers wireless signal faster and more effective by cooperating with an MU-MIMO compatible router.

In the box

- 1 x WiFi 6E Tri-Band AX5400 PCI-E Adapter
- 1 x Bluetooth Cable
- 2 x External Antennas
- 1 x Baffle
- 1 x Quick Start Guide
- Several Screws

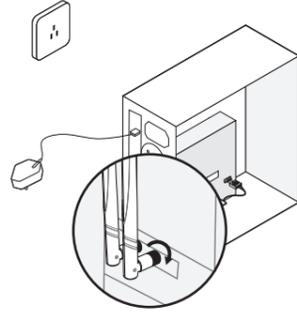

System requirements

- Microsoft Windows 10/11 64 bit or later

Installation

1. Unplug your PC and remove the case panel.
2. Connect the Bluetooth cable to the adapter.
3. Find the corresponding PCI-E slot, then inset the adapter carefully.
4. Find an available **F_USB slot** then carefully connect the adapter to it.

5. Mount the external antenna to the adapter base.

6. At last install back the PC case panel then you can get ready to install the driver.

Driver setup

After installation, please visit the following website to download the latest driver for PCI-E adapter.
www.wavlink.com > SUPPORT > Driver > Wireless > Pcle Wireless > Adapter

1. Unzip the file then you'll see two files, **BT-xxx-Win10-Win11.exe** is for **Bluetooth** and the other **WiFi-xxx-Win10-Win11.exe** is for **Windows**. Please double-click the one for windows.
2. Then installer requires you to click "Next" for further setup.

3. Now please agree to the license terms and conditions, and click "Install".
4. Please wait patiently for the installer to complete the setup process, click "Finish", after completing the installation.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. Prohibited for control of or communications with unmanned aircraft systems.
