### Product Diagram

1. Micro USB Charging Port
2. LED Indicator / Microphone
3. Volume + / Next Track (long press)
4. Multifunction Button
5. Volume - / Previous Track (long press)

### How to Use

## 1. Charging

1) Connect the charging port with any USB charging adapter or active computer USB port.

2) Charging will start automatically with LED indicator turning red.

3) The headphones are fully charged when LED indicator turns blue.

Note: Charge the headphones at least once every 6 months when not using for a long time.

## 2. Pairing

1) Make sure the headphones and your Bluetooth® device are next to each other (within 3 feet / 1 meter).

2) The first time you use the headphones, press and hold the Multifunction Button until the LED indicator flashes red and blue alternately. Now the headphones are in pairing mode.

3) Activate Bluetooth® function on your phone and search for the nearby Bluetooth® connection: Find “TaoTronics TT-BH034” in the search results. Tap on the name to connect. Once connected, the LED indicator will flash blue.

Note:

- The Bluetooth® headphones can remember previous paired devices.
- If the headphones cannot pair with your Bluetooth® device, clear the pairing history by pressing and holding the Multifunction Button when it's being charged until the LED Indicator flashes red once, then turns solid. Restart the headphones to pair again.

## How to Wear

**FCC STATEMENT :**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**RF warning statement:**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
