Important advice regarding security

1.  This product is not suitable for people with a Pacemaker or other cardiac stimulator.
2. The Withings scale data must be considered purely as reference values and not as a medical opinion.
3. A doctor must be consulted before making any decision regarding a change in diet or physical activity.
4. Do not use the scale on a wet floor or with wet feet; you risk slipping and falling.
5. Do not stand on the edges of the scale but well to the centre.
