

When replacement parts are required, be sure the service technician uses replacement parts approved by the Manufacturer. Use of unauthorized replacement parts may result in fire, electric shock, or other hazards.

Upon completion of any service or repairs to your NetXpress XL, ask the service technician to perform routine safety checks to ensure the computer is in safe operating condition.

Notice

The information in this manual is subject to change without notice.

The information contained in this manual was reviewed and validated. While every precaution was taken during the preparation of this manual, Netier Technologies, Inc. makes no warranty of any kind with regard to this material, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose.

Netier Technologies, Inc. is not liable for errors contained herein or for incidental or consequential damages in connection with the furnishing, performance, or use of this material.

Federal Communications Commission Notice

This equipment has been tested and found to comply with the limits for a **Class B** computing device, pursuant to Part 15 of FCC Rules. Only peripherals (computer input/output devices, monitors, printers, etc.) certified to comply with the **Class B** limits may be attached to this computer. Operation with non-certified peripherals is likely to result in interference to operation.

NOTICE: This equipment generates and uses radio frequency energy, and if not installed and used in strict accordance with this user guide, interference to operation may result. It has been type tested and found to comply with the limits for a **Class B** computing device, pursuant to Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in an office or residential installation. However, there is not guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment on and off, you are encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna of any adjacent devices.
- Relocate the NetXpress XL with respect to the device being effected.
- Plug the computer into an alternate outlet so that the NetXpress XL and the receiver are on different branch circuits.

If necessary, consult your reseller for additional suggestions.

You may find the following booklet prepared by the Federal Communications Commission (FCC) helpful: *How to Identify and Resolve Radio-TV Interference Problems*. This book is available from the U.S. Government Printing Office, Washington, D.C. 20402.

Cable Notice

The use of shielded I/O cables is required when connecting this equipment to any and all optional peripheral or host devices. Failure to do so may cause interference and violate FCC and international regulations for electromagnetic interference.

Caution

Changes or modifications not covered in this manual must be approved in writing by the manufacture's Regulatory Engineering department. Changes or modifications made without written approval may void the user's authority to operate the equipment.
