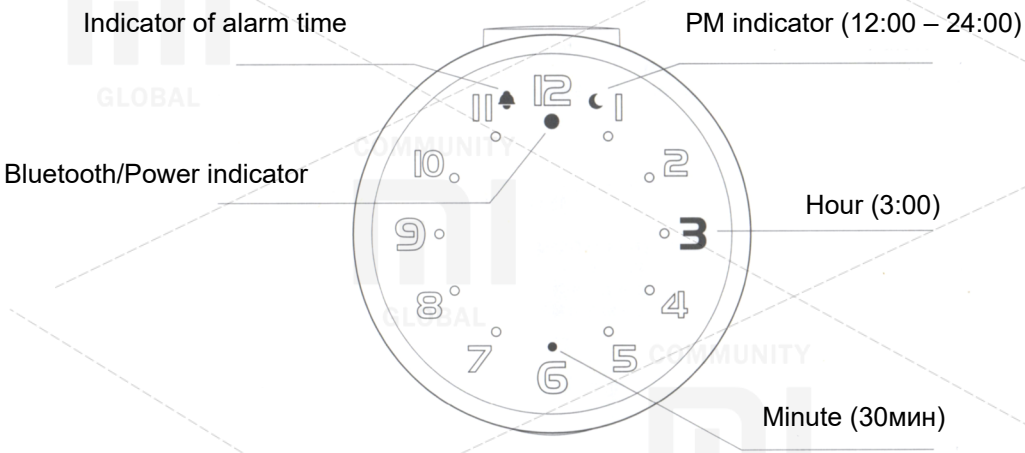
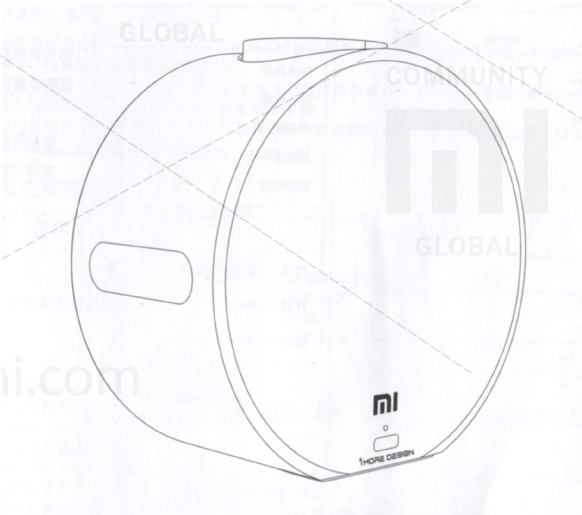
Mi Music Alarm Clock



Front side of Mi Music Alarm Clock



Back side of Mi Music Alarm Clock

Operations

On/OFF

In the off state, press and hold the alarm button for 3 seconds; To turn off the alarm, press and hold the power button for 5 seconds.

Bluetooth connect

The first time you use the alarm, Bluetooth automatically activates the pairing mode. Mi Music Alarm Clock remembers the previously connected device and subsequently automatically mates with it. To connect a new Bluetooth device, press and hold the power button for 3 seconds to turn on Bluetooth pairing.

Music playback

After successfully pairing the alarm clock with the device, turn on the music playback function, and enjoy listening to your favorite tracks.

Alarm settings

In either mode, press the power button twice to open the alarm settings. Scroll the button clockwise to set the minutes; Counterclockwise to set the clock. After a single press of the button, all settings are saved, if you double click on the button, settings are not saved. LED digital display indicates a clock, a round small dot indicates minutes. After 12 hours, an «crescent moon» appears on the alarm clock, indicating PM's afternoon (12:00 - 24:00).

Alarm settings

In any mode, the second double-click on the power button opens the alarm setting mode. Scroll the button clockwise to set the minutes; Counterclockwise to set the clock. Open the alarm call settings. If the alarm has already been paired with your device, an alarm icon will appear when you enter the alarm settings.

Setting the Alarm Clock

In any mode, the third time you press the power button, the alarm melody mode is activated. Scrolling the power button, select a melody. Click once on the button to save the settings, click twice to not save the settings.

Turn off the alarm

In any mode, the third time you press the power button, the alarm melody mode is activated. Scroll the power button to the right or left until you hear a voice prompt to turn off the alarm. Press the button once to turn off the alarm.

During an alarm call

1.You can press once or scroll the power button, otherwise the alarm will ring for 3 minutes, after which the repeat mode will turn on. After 9 minutes, you will hear again the alarm clock. The repeat mode is enabled only 2 times.
2.Double-click the power button to turn off the alarm.

Other

If no operations are performed for 8 seconds when the function setting mode is activated, the alarm clock switches to the main time demonstration mode.

Press and hold the reset button for 2 seconds to reset the settings, after which the alarm can reset.
Night mode: in the period from 23:00 - 7:00 the volume of the audio signal is reduced; Bluetooth indicator and warning signal can be disabled without user settings.
